CATCH BASIN CLEANERS AND JET RODDER TRUCKS (VARIOUS SIZES)

For Use by Eligible Purchasers

By and Between

**STATE OF WASHINGTON
DEPARTMENT OF ENTERPRISE SERVICES**

and

**Ben-Ko-Matic Co.
DBA
Owen Equipment Company**

Dated October 1, 2020

MASTER CONTRACT
No. 00120
CATCH BASIN CLEANERS AND JET RODDER TRUCKS (VARIOUS SIZES)

This Master Contract ("Master Contract") is made and entered into by and between the State of Washington acting by and through the Department of Enterprise Services, a Washington State governmental agency ("Enterprise Services") and Ben-Ko-Matic Co. DBA Owen Equipment Company, an Oregon Profit Corporation ("Contractor") and is dated and effective as of October 1, 2020.

RECITALS

- A. Pursuant to Legislative direction codified in RCW chapter 39.26, Enterprise Services, on behalf of the State of Washington, is authorized to develop, solicit, and establish master contracts for goods and/or services for general use by Washington state agencies and certain other entities (eligible purchasers).
- B. Pursuant to its statutory authority, Enterprise Services is establishing a Master Contract for Catch Basin Cleaners and Jet Rodder Trucks (Various Sizes) on Manufacturer OR Customer Provided Chassis, with Options, Parts and Operator and Mechanic Training that is designed to enable eligible purchasers to procure Catch Basin Cleaners and Jet Rodder Trucks (Various Sizes) to include options, parts, and Operator and Mechanic Training from the awarded Contractor in a cost-effective, efficient manner using the terms and conditions of the Master Contract.
- C. On behalf of the State of Washington, Enterprise Services, as part of a competitive governmental procurement, issued Competitive Solicitation No. 00120 dated June 16, 2020.
- D. Enterprise Services evaluated all responses to the Competitive Solicitation and identified Contractor as an apparent successful bidder.
- E. Enterprise Services has determined that entering into this Master Contract will meet the identified needs and be in the best interest of the State of Washington.
- F. The purpose of this Master Contract is to enable eligible purchasers to purchase Catch Basin Cleaners and Jet Rodder Trucks (Various Sizes) on Manufacturer OR Customer Provided Chassis, to include options, parts, and operator and mechanic training. Vehicles offered on this contract shall include the most cost-effective, low-emission options available, as set forth herein.

AGREEMENT

NOW THEREFORE, in consideration of the mutual promises, covenants, and conditions set forth herein, the parties hereto hereby agree as follows:

- 1. **TERM.** The term of this Master Contract is seventy-two (72) months, commencing October 1, 2020 and ending September 30, 2026.
- 2. **ELIGIBLE PURCHASERS.** This Master Contract may be utilized by any of the following types of entities ("Purchaser"):
 - 2.1. **WASHINGTON STATE AGENCIES.** All Washington state agencies, departments, offices, divisions, boards, and commissions.

- 2.2. WASHINGTON STATE INSTITUTIONS OF HIGHER EDUCATION (COLLEGES). Any the following institutions of higher education in Washington:
- State universities – i.e., University of Washington & Washington State University;
 - Regional universities – i.e., Central Washington University, Eastern Washington University, & Western Washington University
 - Evergreen State College;
 - Community colleges; and
 - Technical colleges.
- 2.3. MCUA PARTIES. Any of the following types of entities that have executed a Master Contract Usage Agreement with Enterprise Services:
- Political subdivisions (e.g., counties, cities, school districts, public utility districts) in the State of Washington;
 - Federal governmental agencies or entities;
 - Public-benefit nonprofit corporations (i.e., § 501(c)(3) nonprofit corporations that receive federal, state, or local funding); and
 - Federally-recognized Indian Tribes located in the State of Washington.
- 2.4 OREGON COOPERATIVE PURCHASING PROGRAM (ORCPP). The Master Contract also is available for use by the State of Oregon and its eligible purchasers through the Oregon Cooperative Purchasing Program (ORCPP).

3. SCOPE – INCLUDED GOODS/SERVICES AND PRICE.

- 3.1. CONTRACT SCOPE. Pursuant to this Master Contract, Contractor is authorized to sell only those goods and/or services set forth in *Exhibit A – Included Goods/Services* for the prices set forth in *Exhibit B – Prices*. Contractor shall not represent to any Purchaser under this Master Contract that Contractor has contractual authority to sell any goods and/or services beyond those set forth in *Exhibit A – Included Goods/Services*.
- 3.2. STATE’S ABILITY TO MODIFY SCOPE OF MASTER CONTRACT. Subject to mutual agreement between the parties, Enterprise Services reserves the right to modify the goods and/or services included in this Master Contract; *Provided*, however, that any such modification shall be effective only upon thirty (30) days advance written notice; and *Provided further*, that any such modification must be within the scope of this Master Contract.
- 3.3. PRICE ADJUSTMENTS. The Master Contract prices are the maximum prices the Contractor may charge. Pricing shall remain firm and fixed for one (1) year from the Master Contract’s effective date. Pricing is list price at the time of order. Beginning twelve (12) months after the effective date of this Master Contract and for every annual anniversary thereafter, Contractor may request an annual price adjustment by written notice to the Contract Administrator. Contractor may not change the percent discount. Price adjustment requests must be based on changes in the current Manufacturer’s Suggested Retail Prices (MSRP) list. Consideration of price adjustments will be at the sole discretion of the Contract Administrator. A completed list of suggested pricing (MSRP) changes must be sent to the Contract Administrator for approval sixty (60) days prior to the requested date of the changes taking effect. No changes may be made to the Contractor hosted catalog until approval is provided by the Contract Administrator. If a price increase is approved in part or in full, the

resulting new Master Contract pricing will be implemented through a Contract Amendment. Contractor may not make Master Contract extensions contingent on price adjustments.

- 3.4. **PRICE CEILING.** Although Contractor may offer lower prices to Purchasers, during the term of this Master Contract, Contractor guarantees to provide the Goods/Services at no greater than the prices set forth in *Exhibit B – Prices for Goods/Services* (subject to economic adjustment as set forth herein).
- 3.5. **MASTER CONTRACT INFORMATION.** Enterprise Services shall maintain and provide information regarding this Master Contract, including scope and pricing, to eligible Purchasers.
- 4. CONTRACTOR REPRESENTATIONS AND WARRANTIES.** Contractor makes each of the following representations and warranties as of the effective date of this Master Contract and at the time any order is placed pursuant to this Master Contract. If, at the time of any such order, Contractor cannot make such representations and warranties, Contractor shall not process any orders and shall, within three (3) business days notify Enterprise Services, in writing, of such breach.
- 4.1. **QUALIFIED TO DO BUSINESS.** Contractor represents and warrants that it is in good standing and qualified to do business in the State of Washington, that it is registered with the Washington State Department of Revenue and the Washington Secretary of State, that it possesses and shall keep current all required licenses and/or approvals, and that it is current, in full compliance, and has paid all applicable taxes owed to the State of Washington.
- 4.2. **SUSPENSION & DEBARMENT.** Contractor represents and warrants that neither it nor its principals or affiliates presently are debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in any governmental contract by any governmental department or agency within the United States.
- 4.3. **QUALITY OF GOODS OR SERVICES.** Contractor represents and warrants that any goods and/or services sold pursuant to this Master Contract shall be merchantable, shall conform to this Master Contract and Purchaser's Purchase Order, shall be fit and safe for the intended purposes, shall be free from defects in materials and workmanship, and shall be produced and delivered in full compliance with applicable law. Contractor further represents and warrants it has clear title to the goods and that the same shall be delivered and the services provided free of liens and encumbrances and that the same do not infringe any third party patent. Upon breach of warranty, Contractor will repair or replace (at no charge to Purchaser) any goods and/or services whose nonconformance is discovered and made known to the Contractor. If, in Purchaser's judgment, repair or replacement is inadequate, or fails of its essential purpose, Contractor will refund the full amount of any payments that have been made. The rights and remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or equity, including, without limitation, actual damages, and, as applicable and awarded under the law, to a prevailing party, reasonable attorneys' fees and costs.
- 4.4. **WAGE VIOLATIONS.** Contractor represents and warrants that, during the term of this Master Contract and the three (3) year period immediately preceding the award of the Master Contract, it is not determined, by a final and binding citation and notice of assessment issued by the Washington Department of Labor and Industries or through a civil judgment entered by a court of limited or general jurisdiction, to be in willful violation of any provision of Washington state wage laws set forth in RCW chapters 49.46, 49.48, or 49.52.
- 4.5. **PAY EQUALITY.** Contractor represents and warrants that, among its workers, similarly employed individuals are compensated as equals. For purposes of this provision, employees are

similarly employed if the individuals work for the same employer, the performance of the job requires comparable skill, effort, and responsibility, and the jobs are performed under similar working conditions. Job titles alone are not determinative of whether employees are similarly employed. Contractor may allow differentials in compensation for its workers based in good faith on any of the following: a seniority system; a merit system; a system that measures earnings by quantity or quality of production; a bona fide job-related factor or factors; or a bona fide regional difference in compensation levels. A bona fide job-related factor or factors may include, but not be limited to, education, training, or experience that is: consistent with business necessity; not based on or derived from a gender-based differential; and accounts for the entire differential. A bona fide regional difference in compensation level must be consistent with business necessity; not based on or derived from a gender-based differential; and account for the entire differential. Notwithstanding any provision to the contrary, upon breach of warranty and Contractor's failure to provide satisfactory evidence of compliance within thirty (30) days, Enterprise Services may suspend or terminate this Master Contract and any Purchaser hereunder similarly may suspend or terminate its use of the Master Contract and/or any agreement entered into pursuant to this Master Contract.

- 4.6. EXECUTIVE ORDER 18-03 – WORKERS' RIGHTS. Contractor represents and warrants, as previously certified in Contractor's Bidder's Certification, that Contractor does NOT require its employees, as a condition of employment, to sign or agree to mandatory individual arbitration clauses or class or collective action waivers. Contractor further represents and warrants that, during the term of this Contract, Contractor shall not, as a condition of employment, require its employees to sign or agree to mandatory individual arbitration clauses or class or collective action waivers.
- 4.7. VEHICLE RESELLER BUSINESS LICENSE. Contractor represents and warrants, as previously certified in Contractor's Bidder Certification, that Contractor is licensed to sell vehicles in the state of Washington. Contractor shall maintain this license for the duration of the Master Contract.
- 4.8. AUTHORIZED DEALER/DISTRIBUTOR/SERVICE REPRESENTATIVE. Contractor represents and warrants, as previously certified in Contractor's Bidder Certification, that Contractor is an authorized Dealer and Service Representative for a Manufacturer of Catch Basin Cleaner and Jet Rodder Trucks. Contractor shall maintain this certification for the duration of the Master Contract. Upon request by Enterprise Services, Contractor shall provide evidence of its status as an authorized service provider or product reseller.
- 4.9. EQUIPMENT WARRANTY. Contractor represents and warrants, as previously certified in Contractor's Submitted *Exhibit B – Performance Requirements*, that those goods and/or services provided by Contractor set forth in *Exhibit A – Included Goods/Services* will meet the equipment warranty set forth in this Master Contract.
- 4.10. PROCUREMENT ETHICS & PROHIBITION ON GIFTS. Contractor represents and warrants that it complies fully with all applicable procurement ethics restrictions including, but not limited to, restrictions against Contractor providing gifts or anything of economic value, directly or indirectly, to Purchasers' employees.
- 4.11. WASHINGTON'S ELECTRONIC BUSINESS SOLUTION (WEBS). Contractor represents and warrants that it is registered in Washington's Electronic Business Solution (WEBS), Washington's contract registration system and that, all of its information therein is current and accurate and that

throughout the term of this Master Contract, Contractor shall maintain an accurate profile in WEBS.

- 4.12. STATEWIDE PAYEE DESK. Contractor represents and warrants that it is registered with the Statewide Payee Desk, which registration is a condition to payment.
- 4.13. MASTER CONTRACT PROMOTION; ADVERTISING AND ENDORSEMENT. Contractor represents and warrants that it shall use commercially reasonable efforts both to promote and market the use of this Master Contract with eligible Purchasers and to ensure that those entities that utilize this Master Contract are eligible Purchasers. Contractor understands and acknowledges that neither Enterprise Services nor Purchasers are endorsing Contractor's goods and/or services or suggesting that such goods and/or services are the best or only solution to their needs. Accordingly, Contractor represents and warrants that it shall make no reference to Enterprise Services, any Purchaser, or the State of Washington in any promotional material without the prior written consent of Enterprise Services.
- 4.14. MASTER CONTRACT TRANSITION. Contractor represents and warrants that, in the event this Master Contract or a similar contract, is transitioned to another contractor (e.g., Master Contract expiration or termination), Contractor shall use commercially reasonable efforts to assist Enterprise Services for a period of sixty (60) days to effectuate a smooth transition to another contractor to minimize disruption of service and/or costs to the State of Washington.

5. USING THE MASTER CONTRACT – PURCHASES.

- 5.1. ORDERING REQUIREMENTS. Eligible Purchasers shall order goods and/or services from this Master Contract, consistent with the terms hereof and by using any ordering mechanism agreeable both to Contractor and Purchaser but, at a minimum, including the use of a purchase order. When practicable, Contractor and Purchaser also shall use telephone orders, email orders, web-based orders, and similar procurement methods (collectively "Purchaser Order"). All order documents must reference the Master Contract number. The terms of this Master Contract shall apply to any Purchase Order and, in the event of any conflict, the terms of this Master Contract shall prevail. Notwithstanding any provision to the contrary, in no event shall any 'click-agreement,' software or web-based application terms and conditions, or other agreement modify the terms and conditions of this Master Contract. Prior to time of order, Contractor must provide Purchaser with the current MSRP for Chassis with applicable options and Contractor's discounted price, as defined in *Exhibit B – Prices* of Master Contract.
- 5.2. PURCHASE ORDERS. Contractor shall, in accordance with all terms and conditions of this Master Contract, fully perform and shall be obligated to comply with all Purchase Orders received by the Contractor prior to the expiration hereof, unless otherwise directed in writing by the Contract Administrator, including, without limitation, all Purchase Orders received prior to but not fully performed and satisfied at the expiration of this Contract.
- 5.3. DELIVERY REQUIREMENTS. Contractor must ensure that delivery of goods and/or services will be made as required by this Master Contract, the Purchase Order used by Purchasers, or as otherwise mutually agreed in writing between the Purchaser and Contractor. The following apply to all deliveries:
 - (a) Vehicle delivery must be within 365 days of receipt of Purchase Order, or upon receipt of Purchaser Provided Chassis, whichever is later.
 - (b) Contractor shall not impose any delivery charges on completely configured vehicles. Delivery fees for completely configured vehicles offered within this Master Contract are included in purchase prices set forth in this Master

- Contract. Delivery fees for completely configured vehicles will not be allowed as a separate line item. Delivery fees for parts purchased separately as opposed to a completely configured vehicle are allowed as a separate line item.
- (c) Contractor shall make all deliveries to the applicable delivery location specified in the Purchase Order. Such deliveries shall occur during Purchaser's normal work hours and within the time period mutually agreed in writing between Purchaser and Contractor.
- (d) Contractor shall ship all goods and/or services purchased pursuant to this Master Contract, freight charges prepaid by Contractor, FOB Purchaser's specified destination with all transportation and handling charges included. Contractor shall bear all risk of loss, damage, or destruction of the goods and/or services ordered hereunder that occurs prior to delivery, except loss or damage attributable to Purchaser's fault or negligence.
- (e) All packing lists, packages, instruction manuals, correspondence, shipping notices, shipping containers, and other written materials associated with this Master Contract shall be identified by the Master Contract number set forth on the cover of this Master Contract and the applicable Purchaser's Purchase Order number. Packing lists shall be enclosed with each shipment and clearly identify all contents and any backorders.
- (f) Contractor must provide the following documents for review at time of delivery for each item:
1. Contractor Delivery Checklist (see Exhibit D)
 2. The manufacturer's line production sheet stating the equipment serial numbers and listing all of the equipment's components.
 3. Completed Invoice
 4. One (1) copy of the operator, maintenance and parts manuals are required at time of delivery. Digital copy preferred.
 5. The Manufacturer's Statement of Origin (MSO)
 6. Axle weight slips (for all units with axles)
 7. Vehicle weight slips from certified scales for:
 - 1) empty truck and
 - 2) fully loaded with fresh water
 8. A completed Washington State title application with original signature must be delivered with the vehicle. showing both the legal and registered owner as Purchaser. Contractor(s) may contact ordering Purchaser to obtain a Washington State title application or addresses and information regarding the title.
 9. Engineering schematic drawings of the electrical and hydraulic systems are due upon delivery of each unit. Digital copies preferred.
- (g) Contractor must notify Purchaser at the phone number listed in the Purchase Order, twenty-four (24) hours prior to equipment delivery. This is to ensure that a Purchaser employee is available to sign and date the bill of lading (or other

- type delivery document) and receive the above mentioned documents, and to indicate that Purchaser has received delivery of the equipment.
- (h) When the unit is ready for final delivery, it may be delivered to Purchaser (as specified in the Purchase Order) as arranged with the specific Purchaser. Unless otherwise agreed in writing by Purchaser, deliveries must NOT be made on weekends or on legally recognized state and federal holidays.
 - (i) Purchaser will not accept any responsibility for equipment that has been delivered to or left at a Purchaser facility, unless a Purchaser employee has signed and dated the bill of lading or other delivery documents indicating Purchaser has received delivery of the equipment.
 - (j) Contractor is solely liable for any equipment damages that occurred prior to Purchaser receiving delivery of the equipment.
- 5.4. NOTIFICATION OF DELAY. Contractor shall provide prompt notice to Purchaser and Enterprise Services for any delay in the manufacturing process that will affect the expected delivery date. Contractor will provide notice of the delay within fourteen (14) days of discovery of the potential delay. This notice of delay must include a reasonable expectation of when the delay will be resolved, the reason for the delay, whether the delay will cause the delivery to exceed the delivery date, and any other applicable information regarding the delay.
- (a) Purchaser shall provide Contractor with notice of acceptance of the reasonable delay or notice that the delay is determined to be non-excusable within seven (7) days of receipt of the notice of delay.
 - (b) If there is a dispute between Contractor and Purchaser as to whether the delay is reasonable, the Contractor may appeal the Purchaser's decision to Enterprise Services within seven (7) days of receipt of the notice that the delay is non-excusable. Enterprise Services will review the provided information and make a final determination as to whether the delay is reasonable or non-excusable.
 - (c) If a dispute remains after this procedure, parties shall follow the dispute resolution process of Section 16. Contractor shall promptly comply with any request from Enterprise Services or Purchaser for additional information in making the delay determination. A request for more information from Enterprise Services or Purchaser tolls the time for required response until the time that Contractor responds to the request for more information.
 - (d) Reasonable delay is a delay for which the Contractor is not responsible. A reasonable delay must arise from unforeseeable causes, be beyond the control of the contractor, and be without the fault or negligence of the Contractor. A reasonable delay will extend the delivery date by the agreed upon length of the delay.
 - (e) Non-excusable delay is a delay for which the Contractor is wholly or partially responsible. A non-excusable delay is a delay that arises from a foreseeable cause, is within the control of the Contractor, or is due to the fault or negligence of the Contractor. A non-excusable delay will not extend the agreed upon delivery date.
- 5.5. DELAY DAMAGES. Purchaser may incur damages by any failure on the part of Contractor to deliver the products as defined in this contract within the time specified in delivery date. The amount of such damages Contractor shall pay to Purchaser is the reasonable equipment rental rate for a comparable piece of equipment for each late delivery day. *Damages will not be assessed unless an equipment rental actually occurs and documentation is provided to*

Contractor. In lieu of equipment rental requiring monetary compensation, Contractor may provide comparable equipment for Purchaser to use if equipment is deemed acceptable by Purchaser, for each late delivery day. This will apply for each workday the Catch Basin Cleaner and/or Jet Rodder Trucks are not delivered in substantially good condition as inspected by the Purchaser, based on acceptance criteria. The Purchaser may elect to deduct the amount of the damages from the amount due to the Contractor under the Purchase Order or may invoice the Contractor for the amount due based on the delay. If Purchaser requires Contractor to pay the delay damages, Contractor shall pay the entire amount within thirty (30) days after receipt of invoice by Purchaser. The payment of damages will be in lieu of any damages for any loss of profit, loss of revenue, loss of use, or for any other direct, indirect, special or consequential losses or damages of any kind that may be suffered by Purchaser arising at any time from the failure of Contractor to fulfill the delivery obligations in a timely manner.

- 5.6. EQUIPMENT WARRANTY. Contractor must provide technical support and reasonable equipment modifications for a period of ninety (90) calendar days after the date the equipment is reported in service per manufacturer and/or factory warranty requirements. This is to ensure that the purchased equipment is capable of performing the specified operational functions. Contractor must include the factory and/or manufacturer's one-year warranty, which must cover 100% parts and labor for the entire unit offered. This warranty must be honored by all authorized factory and/or manufacturer's dealerships.

- (a) Contractor is liable for all costs associated with warranty repair(s), including, but not limited to, materials, parts, labor, and transport of equipment that are disabled due to the failure of the equipment during the warranty period. Contractor is liable for transportation costs when vehicle is disabled, meaning the vehicle is unable to be legally driven or operated safely. For all other warranty repairs, Contractor may decide to transport equipment to service center OR send out a service technician to location of equipment to perform on-site repair. Contractor's liability for transportation costs are ONLY applicable to the terms of the initial warranty as defined in this contract.
- (b) Warranty coverage will not commence until the date the completed equipment is placed into service as reported by Purchaser pursuant to the warranty requirements, or 30 days after final payment for the equipment, whichever occurs first.
- (c) During the warranty period, Contractor must begin physical repairs on equipment failures within 72 hours after Purchaser has notified the Contractor of an equipment failure. Should Contractor fail to begin equipment repairs within 72 hours after notification, Purchaser may elect (based on operational requirements) to make the warranty repairs. Should Purchaser elect to make such warranty repairs, Contractor agrees to fully reimburse Purchaser for all parts, materials, labor, shipping and travel costs incurred by Purchaser for such warranty repairs. Purchaser must provide Contractor with a detailed invoice, and Contractor agrees to remit payment to the Purchaser within thirty days (30) after receipt of the invoice. Failure to provide and complete warranty service/repair within two weeks (14 calendar days) of vehicle/equipment entering Contractor's facility may be

sufficient grounds for Enterprise Services to deny Contractor from bidding in future procurements due to poor performance.

- (d) During warranty period the Contractor may, upon notification of a warranty failure, authorize Purchaser equipment repair technicians to make warranty repairs when it advantages Purchaser and Contractor. Contractor must reimburse Purchaser for all costs associated with the warranty repair.

5.7. RECEIPT AND INSPECTION OF GOODS AND/OR SERVICES. Goods and/or services purchased under this Master Contract are subject to Purchaser's reasonable inspection, testing, and approval at Purchaser's destination. Purchaser reserves the right to reject and refuse acceptance of goods and/or services that are not in accordance with this Master Contract and Purchaser's Purchase Order. Purchaser may charge Contractor for the cost of inspecting rejected goods. If there are any apparent defects in the goods and/or services at the time of delivery, Purchaser promptly will notify Contractor. At Purchaser's option, and without limiting any other rights, Purchaser may require Contractor to repair or replace, at Contractor's expense, any or all of the damaged goods and/or services or, at Purchaser's option, Purchaser may note any damage to the goods and/or services on the receiving report, decline acceptance, and deduct the cost of rejected goods and/or services from final payment. Payment for any goods under such Purchase Order shall not be deemed acceptance of the goods.

5.8. ON SITE REQUIREMENTS. While on Purchaser's premises, Contractor, its agents, employees, or subcontractors shall comply, in all respects, with Purchaser's physical, fire, access, safety, and other security requirements.

6. INVOICING & PAYMENT.

6.1. CONTRACTOR INVOICE. Contractor shall submit to Purchaser's designated invoicing contact properly itemized invoices. Such invoices shall itemize the following:

- (a) Master Contract No. 00120
- (b) Contractor name, address, telephone number, and email address for billing issues (i.e., Contractor Customer Service Representative)
- (c) Contractor's Federal Tax Identification Number
- (d) Date(s) of delivery
- (e) Invoice amount; and
- (f) Payment terms, including any available prompt payment discounts.

Contractor's invoices for payment shall reflect accurate Master Contract prices. Invoices will not be processed for payment until receipt of a complete invoice as specified herein.

6.2. PAYMENT. Payment is the sole responsibility of, and will be made by, the Purchaser. Payment is due within thirty (30) days of invoice. If Purchaser fails to make timely payment(s), Contractor may invoice Purchaser in the amount of one percent (1%) per month on the amount overdue or a minimum of \$1. Payment will not be considered late if a check or warrant is mailed within the time specified.

6.3. OVERPAYMENTS. Contractor promptly shall refund to Purchaser the full amount of any erroneous payment or overpayment. Such refunds shall occur within thirty (30) days of written notice to Contractor; *Provided*, however, that Purchaser shall have the right to elect to have either direct payments or written credit memos issued. If Contractor fails to make

timely payment(s) or issuance of such credit memos, Purchaser may impose a one percent (1%) per month on the amount overdue thirty (30) days after notice to the Contractor.

- 6.4. NO ADVANCE PAYMENT. No advance payments shall be made for any products or services furnished by Contractor pursuant to this Master Contract.
- 6.5. NO ADDITIONAL CHARGES. Unless otherwise specified herein, Contractor shall not include or impose any additional charges including, but not limited to, charges for delivery, shipping, handling, or payment processing.
- 6.6. TAXES/FEES. Contractor promptly shall pay all applicable taxes on its operations and activities pertaining to this Master Contract. Failure to do so shall constitute breach of this Master Contract. Unless otherwise agreed, Purchaser shall pay applicable sales tax imposed by the State of Washington on purchased goods and/or services. Contractor, however, shall not make any charge for federal excise taxes and Purchaser agrees to furnish Contractor with an exemption certificate where appropriate.

7. CONTRACT MANAGEMENT.

- 7.1. CONTRACT ADMINISTRATION & NOTICES. Except for legal notices, the parties hereby designate the following contract administrators as the respective single points of contact for purposes of this Master Contract. Enterprise Services' contract administrator shall provide Master Contract oversight. Contractor's contract administrator shall be Contractor's principal contact for business activities under this Master Contract. The parties may change contractor administrators by written notice as set forth below.

Any notices required or desired shall be in writing and sent by U.S. mail, postage prepaid, or sent via email, and shall be sent to the respective addressee at the respective address or email address set forth below or to such other address or email address as the parties may specify in writing:

Notices shall be deemed effective upon the earlier of receipt when delivered, or, if mailed, upon return receipt, or, if emailed, upon transmission to the designated email address of said addressee.

8. CONTRACTOR SALES REPORTING; VENDOR MANAGEMENT FEE; & CONTRACTOR REPORTS.

8.1. **MASTER CONTRACT SALES REPORTING.** Contractor shall report total Master Contract sales quarterly to Enterprise Services, as set forth below.

- (a) **Master Contract Sales Reporting System.** Contractor shall report quarterly Master Contract sales in Enterprise Services' Master Contract Sales Reporting System. Enterprise Services will provide Contractor with a login password and a vendor number. The password and vendor number will be provided to the Sales Reporting Representative(s) listed on Contractor's Bidder Profile.
- (b) **Data.** Each sales report must identify every authorized Purchaser by name as it is known to Enterprise Services and its total combined sales amount invoiced during the reporting period (i.e., sales of an entire agency or political subdivision, not its individual subsections). The "Miscellaneous" option may be used only with prior approval by Enterprise Services. Upon request, Contractor shall provide contact information for all authorized Purchasers specified herein during the term of the Master Contract. If there are no Master Contract sales during the reporting period, Contractor must report zero sales.
- (c) **Due dates for Master Contract Sales Reporting.** Quarterly Master Contract Sales Reports must be submitted electronically by the following deadlines for all sales invoiced during the applicable calendar quarter:

FOR CALENDAR QUARTER ENDING	MASTER CONTRACT SALES REPORT DUE
March 31:	April 30
June 30:	July 31
September 30:	October 31
December 31:	January 31

8.2. **VENDOR MANAGEMENT FEE.** Contractor shall pay to Enterprise Services a vendor management fee ("VMF") of 1.5 percent on the purchase price for all Master Contract sales (the purchase price is the total invoice price less applicable sales tax).

- (a) The sum owed by Contractor to Enterprise Services as a result of the VMF is calculated as follows:

Amount owed to Enterprise Services = Total Master Contract sales invoiced (not including sales tax) x .015.

- (b) The VMF must be rolled into Contractor's current pricing. The VMF must not be shown as a separate line item on any invoice unless specifically requested and approved by Enterprise Services.
- (c) Enterprise Services will invoice Contractor quarterly based on Master Contract sales reported by Contractor. Contractors are not to remit payment until they receive an invoice from Enterprise Services. Contractor's VMF payment to Enterprise Services must reference this Master Contract number, work request number (if applicable), the year and quarter for which the VMF is being remitted, and the Contractor's name as set forth in this Master Contract, if not already included on the face of the check.
- (d) Failure to accurately report total net sales, to submit a timely usage report, or remit timely payment of the VMF, may be cause for Master Contract suspension or termination or the exercise of other remedies provided by law. Without limiting any other available remedies, the Parties agree that Contractor's failure to remit to Enterprise Services timely payment of the VMF shall obligate Contractor to pay to Enterprise Services, to offset the administrative and transaction costs incurred by the State to identify, process, and collect such sums, the sum of \$200.00 or twenty-five percent (25%) of the outstanding amount, whichever is greater, or the maximum allowed by law, if less.
- (e) Enterprise Services reserves the right, upon thirty (30) days advance written notice, to increase, reduce, or eliminate the VMF for subsequent purchases, and reserves the right to renegotiate Master Contract pricing with Contractor when any subsequent adjustment of the VMF might justify a change in pricing.

8.3. ANNUAL MASTER CONTRACT SALES REPORT. Contractor shall provide to Enterprise Services a detailed annual Master Contract sales report. Such report shall include, at a minimum: Product description, part number or other Product identifier, per unit quantities sold, and Master Contract price. This report must be provided in an electronic format that can be read by Microsoft (MS) Excel.

9. RECORDS RETENTION & AUDITS.

- 9.1. RECORDS RETENTION. Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Contract and orders placed by Purchasers under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall retain such records for a period of six (6) years following expiration or termination of this Master Contract or final payment for any order placed by a Purchaser against this Master Contract, whichever is later; *Provided*, however, that if any litigation, claim, or audit is commenced prior to the expiration of this period, such period shall extend until all such litigation, claims, or audits have been resolved.
- 9.2. AUDIT. Enterprise Services reserves the right to audit, or have a designated third party audit, applicable records to ensure that Contractor has properly invoiced Purchasers and that Contractor has paid all applicable vendor management fees. Accordingly, Contractor shall permit Enterprise Services, any Purchaser, and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Contract or orders placed by

a Purchaser under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following expiration or termination of this Master Contract or final payment for any order placed by a Purchaser against this Master Contract, whichever is later; *Provided*, however, that if any litigation, claim, or audit is commenced prior to the expiration of this period, such period shall extend until all such litigation, claims, or audits have been resolved.

- 9.3. OVERPAYMENT OF PURCHASES OR UNDERPAYMENT OF FEES. Without limiting any other remedy available to any Purchaser, Contractor shall (a) reimburse Purchasers for any overpayments inconsistent with the terms of this Master Contract or orders, at a rate of 125% of such overpayments, found as a result of the examination of the Contractor's records; and (b) reimburse Enterprise Services for any underpayment of fees, at a rate of 125% of such fees found as a result of the examination of the Contractor's records (e.g., if Contractor underpays the Vendor Management Fee by \$500, Contractor would be required to pay to Enterprise Services $\$500 \times 1.25 = \$625$).

10. INSURANCE.

- 10.1. REQUIRED INSURANCE. During the Term of this Master Contract, Contractor, at its expense, shall maintain in full force and effect the insurance coverages set forth in *Exhibit C – Insurance Requirements*. All costs for insurance, including any payments of deductible amounts, shall be considered incidental to and included in the prices for goods/services and no additional payment shall be made.
- 10.2. WORKERS COMPENSATION. Contractor shall comply with applicable workers compensation statutes and regulations (e.g., RCW Title 51, Industrial Insurance). If Contractor fails to provide industrial insurance coverage or fails to pay premiums or penalties on behalf of its employees as may be required by law, Enterprise Services may terminate this Master Contract. This provision does not waive any of the Washington State Department of Labor and Industries (L&I) rights to collect from Contractor. In addition, Contractor waives its immunity under RCW Title 51 to the extent it is required to indemnify, defend, and hold harmless the State of Washington and its agencies, officials, agents, or employees.

11. CLAIMS.

- 11.1. ASSUMPTION OF RISKS; CLAIMS BETWEEN THE PARTIES. Contractor assumes sole responsibility and all risks of personal injury or property damage to itself and its employees and agents in connection with its operations under this Master Contract. Enterprise Services has made no representations regarding any factor affecting Contractor's risks. Contractor shall pay for all damage to any Purchaser's property resulting directly or indirectly from its acts or omissions under this Master Contract, even if not attributable to negligence by Contractor or its agents.
- 11.2. THIRD-PARTY CLAIMS; INDEMNITY. To the fullest extent permitted by law, Contractor shall defend, indemnify, and hold harmless Enterprise Services and any Purchaser and their employees and agents from and against all claims, demands, judgments, assessments, damages, penalties, fines, costs, liabilities or losses including, without limitation, sums paid in settlement of claims, attorneys' fees, consultant fees, and expert fees (collectively "claims") arising from any act or omission of Contractor or its successors, agents, and subcontractors under this Master Contract, except claims caused solely by Enterprise Services or any Purchasers' negligence. Contractor shall take all steps needed to keep Purchaser's property free of liens arising from Contractor's activities, and promptly obtain or bond the release of any such liens that may be filed.

12. DISPUTE RESOLUTION. The parties shall cooperate to resolve any dispute pertaining to this Master Contract efficiently, as timely as practicable, and at the lowest possible level with authority to resolve such dispute. If, however, a dispute persists and cannot be resolved, it may be escalated within each organization. In such situation, upon notice by either party, each party, within five (5) business days shall reduce its description of the dispute to writing and deliver it to the other party. The receiving party then shall have three (3) business days to review and respond in writing. In the event that the parties cannot then agree on a resolution of the dispute, the parties shall schedule a conference between the respective senior managers of each organization to attempt to resolve the dispute. In the event the parties cannot agree, either party may resort to court to resolve the dispute.

13. SUSPENSION & TERMINATION; REMEDIES.

13.1. **SUSPENSION & TERMINATION FOR DEFAULT.** Enterprise Services may suspend Contractor's operations under this Master Contract immediately by written cure notice of any default. Suspension shall continue until the default is remedied to Enterprise Services' reasonable satisfaction; *Provided*, however, that, if after thirty (30) days from such a suspension notice, Contractor remains in default, Enterprise Services may terminate Contractor's rights under this Master Contract. All of Contractor's obligations to Enterprise Services and Purchasers survive termination of Contractor's rights under this Master Contract, until such obligations have been fulfilled.

13.2. **DEFAULT.** Each of the following events shall constitute default of this Master Contract by Contractor:

- (a) Contractor fails to perform or comply with any of the terms or conditions of this Master Contract including, but not limited to, Contractor's obligation to pay vendor management fees when due;
- (b) Contractor breaches any representation or warranty provided herein; or
- (c) Contractor enters into proceedings relating to bankruptcy, whether voluntary or involuntary.

13.3. **REMEDIES FOR DEFAULT.**

- (a) Enterprise Services' rights to suspend and terminate Contractor's rights under this Master Contract are in addition to all other available remedies.
- (b) In the event of termination for default, Enterprise Services may exercise any remedy provided by law including, without limitation, the right to procure for all Purchasers replacement goods and/or services. In such event, Contractor shall be liable to Enterprise Services for damages as authorized by law including, but not limited to, any price difference between the Master Contract price and the replacement or cover price as well as any administrative and/or transaction costs directly related to such replacement procurement – e.g., the cost of the competitive procurement.

13.4. **LIMITATION ON DAMAGES.** Notwithstanding any provision to the contrary, the parties agree that in no event shall any party or Purchaser be liable to the other for exemplary or punitive damages.

13.5. **GOVERNMENTAL TERMINATION.**

- (a) **Termination for Withdrawal of Authority.** Enterprise Services may suspend or terminate this Master Contract if, during the term hereof, Enterprise Services' procurement authority is withdrawn, reduced, or limited such that Enterprise Services, in its judgment, would lack authority to enter into this Master Contract;

Provided, however, that such suspension or termination for withdrawal of authority shall only be effective upon twenty (20) days prior written notice; and *Provided further*, that such suspension or termination for withdrawal of authority shall not relieve any Purchaser from payment for goods and/or services already ordered as of the effective date of such notice. Except as stated in this provision, in the event of such suspension or termination for withdrawal of authority, neither Enterprise Services nor any Purchaser shall have any obligation or liability to Contractor.

- (b) Termination for Public Convenience. Enterprise Services, for public convenience, may terminate this Master Contract; *Provided*, however, that such termination for public convenience must, in Enterprise Services' judgment, be in the best interest of the State of Washington; and *Provided further*, that such termination for public convenience shall only be effective upon sixty (60) days prior written notice; and *Provided further*, that such termination for public convenience shall not relieve any Purchaser from payment for goods and/or services already ordered as of the effective date of such notice. Except as stated in this provision, in the event of such termination for public convenience, neither Enterprise Services nor any Purchaser shall have any obligation or liability to Contractor.

- 13.6. TERMINATION PROCEDURE. Regardless of basis, in the event of suspension or termination (in full or in part), the parties shall cooperate to ensure an orderly and efficient suspension or termination. Accordingly, Contractor shall deliver to Purchasers all goods and/or services that are complete (or with approval from Enterprise Services, substantially complete) and Purchasers shall inspect, accept, and pay for the same in accordance with this Master Contract and the applicable Purchase Order. Unless directed by Enterprise Services to the contrary, Contractor shall not process any orders after notice of suspension or termination inconsistent therewith.

14. GENERAL PROVISIONS.

- 14.1. TIME IS OF THE ESSENCE. Time is of the essence for each and every provision of this Master Contract.
- 14.2. COMPLIANCE WITH LAW. Contractor shall comply with all applicable law.
- 14.3. INTEGRATED AGREEMENT. This Master Contract constitutes the entire agreement and understanding of the parties with respect to the subject matter and supersedes all prior negotiations, representations, and understandings between them. There are no representations or understandings of any kind not set forth herein.
- 14.4. AMENDMENT OR MODIFICATION. Except as set forth herein, this Master Contract may not be amended or modified except in writing and signed by a duly authorized representative of each party.
- 14.5. AUTHORITY. Each party to this Master Contract, and each individual signing on behalf of each party, hereby represents and warrants to the other that it has full power and authority to enter into this Master Contract and that its execution, delivery, and performance of this Master Contract has been fully authorized and approved, and that no further approvals or consents are required to bind such party.
- 14.6. NO AGENCY. The parties agree that no agency, partnership, or joint venture of any kind shall be or is intended to be created by or under this Master Contract. Neither party is an agent of the other party nor authorized to obligate it.

- 14.7. **ASSIGNMENT.** Contractor may not assign its rights under this Master Contract without Enterprise Services' prior written consent and Enterprise Services may consider any attempted assignment without such consent to be void; *Provided*, however, that, if Contractor provides written notice to Enterprise Services within thirty (30) days, Contractor may assign its rights under this Master Contract in full to any parent, subsidiary, or affiliate of Contractor that controls or is controlled by or under common control with Contractor, is merged or consolidated with Contractor, or purchases a majority or controlling interest in the ownership or assets of Contractor. Unless otherwise agreed, Contractor guarantees prompt performance of all obligations under this Master Contract notwithstanding any prior assignment of its rights.
- 14.8. **BINDING EFFECT; SUCCESSORS & ASSIGNS.** This Master Contract shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.
- 14.9. **PUBLIC INFORMATION.** This Master Contract and all related documents are subject to public disclosure as required by Washington's Public Records Act, RCW chapter 42.56.
- 14.10. **ASSIGNMENT OF ANTITRUST RIGHTS REGARDING PURCHASED GOODS/SERVICES.** Contractor irrevocably assigns to Enterprise Services, on behalf of the State of Washington, any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws in connection with any goods and/or services provided in Washington for the purpose of carrying out the Contractor's obligations under this Master Contract, including, at Enterprise Services' option, the right to control any such litigation on such claim for relief or cause of action.
- 14.11. **FEDERAL FUNDS.** To the extent that any Purchaser uses federal funds to purchase goods and/or services pursuant to this Master Contract, such Purchaser shall specify, with its order, any applicable requirement or certification that must be satisfied by Contractor at the time the order is placed or upon delivery.
- 14.12. **SEVERABILITY.** If any provision of this Master Contract is held to be invalid or unenforceable, such provision shall not affect or invalidate the remainder of this Master Contract, and to this end the provisions of this Master Contract are declared to be severable. If such invalidity becomes known or apparent to the parties, the parties agree to negotiate promptly in good faith in an attempt to amend such provision as nearly as possible to be consistent with the intent of this Master Contract.
- 14.13. **WAIVER.** Failure of either party to insist upon the strict performance of any of the terms and conditions hereof, or failure to exercise any rights or remedies provided herein or by law, or to notify the other party in the event of breach, shall not release the other party of any of its obligations under this Master Contract, nor shall any purported oral modification or rescission of this Master Contract by either party operate as a waiver of any of the terms hereof. No waiver by either party of any breach, default, or violation of any term, warranty, representation, contract, covenant, right, condition, or provision hereof shall constitute waiver of any subsequent breach, default, or violation of the same or other term, warranty, representation, contract, covenant, right, condition, or provision.
- 14.14. **SURVIVAL.** All representations, warranties, covenants, agreements, and indemnities set forth in or otherwise made pursuant to this Master Contract shall survive and remain in effect following the expiration or termination of this Master Contract, *Provided*, however, that nothing herein is intended to extend the survival beyond any applicable statute of limitations periods.

- 14.15. **GOVERNING LAW.** The validity, construction, performance, and enforcement of this Master Contract shall be governed by and construed in accordance with the laws of the State of Washington, without regard to its choice of law rules.
- 14.16. **JURISDICTION & VENUE.** In the event that any action is brought to enforce any provision of this Master Contract, the parties agree to exclusive jurisdiction in Thurston County Superior Court for the State of Washington and agree that in any such action venue shall lie exclusively at Olympia, Washington.
- 14.17. **ATTORNEYS' FEES.** Should any legal action or proceeding be commenced by either party in order to enforce this Master Contract or any provision hereof, or in connection with any alleged dispute, breach, default, or misrepresentation in connection with any provision herein contained, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs incurred in connection with such action or proceeding, including costs of pursuing or defending any legal action, including, without limitation, any appeal, discovery, or negotiation and preparation of settlement arrangements, in addition to such other relief as may be granted.
- 14.18. **FAIR CONSTRUCTION & INTERPRETATION.** The provisions of this Master Contract shall be construed as a whole according to their common meaning and not strictly for or against any party and consistent with the provisions contained herein in order to achieve the objectives and purposes of this Master Contract. Each party hereto and its counsel has reviewed and revised this Master Contract and agrees that the normal rules of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be construed in the interpretation of this Master Contract. Each term and provision of this Master Contract to be performed by either party shall be construed to be both a covenant and a condition.
- 14.19. **FURTHER ASSURANCES.** In addition to the actions specifically mentioned in this Master Contract, the parties shall each do whatever may reasonably be necessary to accomplish the transactions contemplated in this Master Contract including, without limitation, executing any additional documents reasonably necessary to effectuate the provisions and purposes of this Master Contract.
- 14.20. **EXHIBITS.** All exhibits referred to herein are deemed to be incorporated in this Master Contract in their entirety.
- 14.21. **CAPTIONS & HEADINGS.** The captions and headings in this Master Contract are for convenience only and are not intended to, and shall not be construed to, limit, enlarge, or affect the scope or intent of this Master Contract nor the meaning of any provisions hereof.
- 14.22. **ELECTRONIC SIGNATURES.** A signed copy of this Master Contract or any other ancillary agreement transmitted by facsimile, email, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original executed copy of this Master Contract or such other ancillary agreement for all purposes.

14.23. COUNTERPARTS. This Master Contract may be executed in any number of counterparts, each of which shall be deemed an original and all of which counterparts together shall constitute the same instrument which may be sufficiently evidenced by one counterpart. Execution of this Master Contract at different times and places by the parties shall not affect the validity thereof so long as all the parties hereto execute a counterpart of this Master Contract.

EXECUTED as of the date and year first above written.

Its: Operations Manager

BIDDER:		Owen Equipment Company			
Solicitation NO.: 00120- Catch Basin Cleaners and Jet Rodder Trucks (Various Sizes)					
Exhibit B - Performance Requirements (Revised 7.27.20)					
Instructions:					
1. Review Requirements.					
2. Review Priority and the provided definitions:					
• "MANDATORY": Bidder response must comply with the requirement and the Bidder's response will be evaluated on a "Pass/Fail" basis. Selecting "Fully Meets" for mandatory requirements will be considered "Pass". All other responses will be considered "Fail". • "MANDATORY SCORED": Bidder response will be evaluated and assigned a score based on how well Bidder's response meets the requirement. Maximum points possible is 20 points for each requirement. Not meeting any of the requirements will be evaluated as a "Fail". • "HIGHLY DESIRABLE": Bidder response will be evaluated and assigned a score based on how well Bidder's response meets the requirement. Maximum points possible is 10 points for each requirement. Highly Desirable Requirements support necessary purchaser operations and the Bidder response is less effective if such requirements are not met. • "DESIRABLE": Bidder response will be evaluated and assigned a score based on how well Bidder's response meets the requirement. Maximum points possible is 5 points for each requirement. Desirable Requirements enhance operational functionality or quality and make it more desirable.					
3. Select and indicate using the pulldown button if bidder Fully Meets, Partially Meets, or Does Not Meet a requirement in How Bidder Meets Requirement column.					
• Any response that bidder "Partially Meets" must have a written response detailing how and to what extent the bidder "Partially Meets" the requirement. This excludes "Mandatory" Requirements.					
4. Bidder must respond in the Written Response column for every requirement that indicates a "Written Response Required".					
Limited responses may receive lower scoring than those that demonstrate understanding and mastery of the subject matter.					
Req ID	Category	Functional Requirements	Priority	How Bidder Meets Requirement	Written Response
1.0	General	1. General Bidder Requirements			
1.1	General	Must be able to install Catch Basin Cleaner equipment and/or Jet Rodder equipment on to dealer furnished chassis, OR Purchaser provided chassis.	MANDATORY	Fully Meets	
1.2	General	The Bidder must be capable of providing repair parts and supply support for a minimum period of ten (10) years after the delivery date of the equipment.	MANDATORY	Fully Meets	
1.3	General	Bidder must provide all equipment, parts and training under this contract in accordance with industry standards and/or required by law.	MANDATORY	Fully Meets	
1.4	General	Bidder must be able to provide Catch Basin Cleaners, in various sizes, including, but not limited to, 1.5 cu yd. up to 15 cu yd.	MANDATORY SCORED	Fully Meets	Debris body sizes of 3CY, 5CY, 6CY, 9CY, 10CY, 12CY & 15CY available published options, 1.5 CY capacity available upon special request.
1.5	General	Bidder must be able to supply and install Catch Basin Cleaner and/or Jet Rodder equipment on various sizes of chassis, including but not limited to 2 axle, 3 axle, 4 axle or 5 axle.	MANDATORY SCORED	Fully Meets	2 axle combination up thru 5 axle combinations available
1.6	General	Bidder must be able to provide Jet Rodder equipment, with various size fresh water tanks including but not limited to 1000 up to 3000 gal.	MANDATORY SCORED	Fully Meets	100 gallon thru 1,500 gallon fresh water capacity available selections. Additional 1,500 gallon capacity available by using debris body interconnect.
1.7	General	Bidder must submit entire Manufacturers Suggested Retail Price (MSRP) catalog for review. Purchasers would be able to purchase any equipment, options or additions in catalog related to Catch Basin Cleaners and/or Jet Rodder Trucks. Chassis is not included in this requirement.	MANDATORY SCORED	Fully Meets	See Exhibit B Files P1, P2, P3, P4 attached to email
1.7.1	General	Bidder must provide Purchaser with the current MSRP for Chassis with applicable options AND Bidder's discounted price prior to time of order.	MANDATORY SCORED	Fully Meets	See Exhibit C Files CH1, CH2 for Tandem and 5 Axle Pricing
1.8	General	Bidder must have an assigned representative and/or order desk that can service the purchaser's needs for assistance, recommendations or parts and repairs in case of an emergency. Order desk to be available at least from 7:00am to 5:00pm (Pacific Time), Monday through Friday except State holidays.	MANDATORY SCORED	Fully Meets	David Armstrong (206) 304-1185 darms@owenequipment.com - Alternative contact # (253) 852-5819
1.9	General	Bidder must provide upon request individual demonstration of requested configuration (or representative model) to individual Purchasers.	HIGHLY DESIRABLE	Fully Meets	We have equipment demonstration models available as well as rental units
2.0	Equipment	2. General Equipment Requirements			
2.1	Equipment	All units must be new, unused, up-to-date models and must be delivered ready for service.	MANDATORY	Fully Meets	
2.2	Equipment	Each unit must include all inspection coupons and warranty identification cards furnished to general trade.	MANDATORY	Fully Meets	
2.3	Equipment	All extended warranty months and miles/hours must be clearly noted on a placard installed in the vehicle (Manufacturers Statement of Origin) (title)	MANDATORY	Fully Meets	
2.4	Equipment	Equipment offered for this contract must be new (unused) and a current production model.	MANDATORY	Fully Meets	
2.5	Equipment	All accessories and features listed herein must be those supplied by the Original Equipment Manufacturer (OEM), unless substitutions are requested and/or authorized by Purchaser.	MANDATORY	Fully Meets	
2.6	Equipment	Any accessories, features, or operational performance required by FMVSS, Washington State Motor Vehicle Laws, OSHA or WISHA laws or mandates, that apply to the equipment being bid, must be provided by the manufacturer.	MANDATORY	Fully Meets	
2.7	Equipment	All units associated with this purchase must be of the same design and quality as those sold through normal retail channels; and they must possess the latest technology, accessories, and features offered on standard retail units, whether or not they are called for in the following specifications.	MANDATORY	Fully Meets	
2.8	Equipment	Completed vehicle must be DOT compliant for on-road use.	MANDATORY	Fully Meets	
2.9	Equipment	Completed vehicles must meet Washington GYWR standards (RCW 46.44.041) with fresh water tanks at FULL capacity.	MANDATORY	Fully Meets	
2.10	Equipment	All components and accessories cataloged as standard, unless otherwise specified by the Purchaser, must be provided with the unit.	MANDATORY	Fully Meets	
2.11	Equipment	Chassis sold under this contract must meet or exceed current Federal EPA emissions standards for the appropriate Light-Duty or Heavy-Duty Vehicle.	MANDATORY SCORED	Fully Meets	Comply - See Exhibit C Files CH1, CH2
2.12	Equipment	Bidder must identify equipment/parts that are included in a standard Catch Basin Cleaner truck, Combination Catch Basin Cleaner and Jet Rodder truck. Please identify standard builds for each size of Catch Basin Truck and/or Jet Rodder truck you offer for sale.	MANDATORY SCORED	Fully Meets	See Exhibit B Files P1, P2, for standard option content
2.13	Equipment	Thirty (30) days before manufacture date of vehicle, Bidder must notify purchaser of latest technology options added to catalog since time of purchase or order placement. At that time, bidder must give purchaser option to add additional new technology features to order.	MANDATORY SCORED	Fully Meets	Comply-
2.14	Equipment	Hydraulic system should be compatible with biodegradable (EAL) Environmentally Acceptable Lubricants as defined in Appendix A of EPA VGP Permit https://www.epa.gov/sites/default/files/2013-08/epa_vgp_permit_2013.pdf upon Purchaser request	HIGHLY DESIRABLE	Fully Meets	Comply- We have done this many times in the past
3.0	Parts	3. Parts			
3.1	Parts	Bidder must provide Original Equipment Manufacturer (OEM) parts for Catch Basin Cleaners and/or Jet Rodder Equipment.	MANDATORY	Fully Meets	
3.2	Parts	Purchasers must be able to purchase parts separate from entire vehicle, Catch Basin Cleaner, or Jet Rodder truck.	MANDATORY	Fully Meets	
3.3	Parts	The total price for parts must be the same regardless of whether Purchasers make payment by cash, credit card, or electronic payment.	MANDATORY	Fully Meets	
3.4	Parts	Parts must be delivered to location specified in Purchase Order. Delivery fees are allowed as a separate line item on parts that are ordered separately as opposed to a completely configured vehicle.	MANDATORY	Fully Meets	
4.0	Options	4. Options			
4.1	Options	Bidder must provide option to purchase Backup camera and/or 360 camera provisions.	MANDATORY SCORED	Fully Meets	Comply, back up camera and quad camera systems available
4.2	Options	Bidder must provide option to purchase skid platforms including hooklift configurations, in various sizes, including but not limited to 13' skid platforms.	HIGHLY DESIRABLE	Partially Meets	Our systems run off of transfer case driven power plant. We can supply body components mounted on subframe, but they need to be attached to an acceptable power plant to operate.
4.3	Options	Bidder must offer Fan as option to purchase for Vacuum Systems installed on all Catch Basin Cleaner Trucks, instead of PD unit. Fan option must meet the performance criteria of 0 - 8000 CFM and 0 - 200 inches of negative water pressure. Noise level at the operators workstation, must be 85 dBA (A) or less and must be equipped with a cyclonic style separator.	HIGHLY DESIRABLE	Fully Meets	Vector provides a single stage and dual stage fan that meets the specified requirements
5.0	Alternative Technology	5. Alternative Technology Requirements			
5.1	Alternative Technology	Bidders work with Purchasers to create and develop alternative technology options for Catch Basin Cleaner and Jet Rodder equipment to reduce greenhouse gases, including battery operated vehicles, hybrid technology, or alternative fuels (biodiesel, CNG Hydrogen etc.). May include, fully electric chassis, diesel/electric hybrids, or other technologies to reduce greenhouse gases.	HIGHLY DESIRABLE	Fully Meets	Vector is part of Federal Signal group who is forward looking technology driven manufacturing company. We are always looking to partner with customers willing to alpha or beta test new products and collaborate ideas of clean powered and running equipment. See Exhibit B File A1.
5.2	Alternative Technology	Components including motors, inverters, controllers, transmissions and energy storage must be suitable for use on class B on-road trucks, weighing up to 80,000 lbs. GVWR.	HIGHLY DESIRABLE	Does Not Meet	Technology not available at this time
5.3	Alternative Technology	Tractor batteries must be latest lithium-ion battery technology approved for vehicle applications.	HIGHLY DESIRABLE	Does Not Meet	Technology not available at this time
5.4	Alternative Technology	Battery size options must fit utilization requirements. Provide size options in bid response. Battery capacity will need to be identified upon award of contract.	HIGHLY DESIRABLE	Does Not Meet	Technology not available at this time
5.5	Alternative Technology	Inverter charger should be integrated into the vehicle.	DESIRABLE	Does Not Meet	Technology not available at this time
5.6	Alternative Technology	System must be designed to allow for "opportunistic charging".	DESIRABLE	Does Not Meet	Technology not available at this time
5.7	Alternative Technology	Battery state of charge indicator must be visible to operator from driver's seat.	HIGHLY DESIRABLE	Does Not Meet	Technology not available at this time
5.8	Alternative Technology	Peak shaving, smart grid and vehicle-to-grid technologies preferred.	DESIRABLE	Does Not Meet	Technology not available at this time
5.9	Alternative Technology	Electric Vehicle Supply Equipment (EVSE) must be included with bid response and hardware provided by bidder. Installation quote not necessary.	HIGHLY DESIRABLE	Does Not Meet	Technology not available at this time
6.0	Sp. Notes/ Wk.	6. Special Notes/Workmanship			
6.1	Sp. Notes/ Wk.	Hose, wire and tube routing must not impede normal maintenance and adjustment of the unit. Hoses, wires and tubes must be securely and neatly positioned and secured with non-corrosive clamps.	MANDATORY	Fully Meets	
6.2	Sp. Notes/ Wk.	Any relocated OEM chassis serviceable components such as batteries, air tanks, etc., must be easily accessible for routine and/or daily use and maintenance.	MANDATORY	Fully Meets	
6.3	Sp. Notes/ Wk.	Filters must be easily accessible and replaceable without removing or disconnecting other components. If necessary filters may be remotely mounted to meet this requirement. All filters must be heavy-duty and sized for severe duty service.	MANDATORY	Fully Meets	
6.4	Sp. Notes/ Wk.	If special tools, gauges, adapters, etc., are required for normal maintenance, adjustment and/or inspection of the unit, they must be identified and provided with the unit.	MANDATORY	Fully Meets	
6.5	Sp. Notes/ Wk.	Engineering schematic drawings of the electrical and hydraulic systems are required. Digital copies preferred. Due upon delivery of each unit.	MANDATORY	Fully Meets	
6.6	Sp. Notes/ Wk.	COVERS: All caps and covers that must be removed in order to perform daily to weekly Preventive Maintenance, other scheduled warranty service, or maintenance recommended or required by the Contractor, must be secured to the Unit by a chain or other device. All hoses, pipes, and plumbing connections must have either retained covers, quick disconnects, or protective caps.	MANDATORY	Fully Meets	
6.7	Sp. Notes/ Wk.	HOSE, WIRE AND TUBE ROUTING: Hose, wire and tube routing must not impede normal maintenance and adjustment of the Unit. Hoses, wires and tubes must be securely and neatly optioned. Kinks in hoses, wires, and/or tubing are not acceptable.	MANDATORY	Fully Meets	
6.8	Sp. Notes/ Wk.	HYDRAULIC SYSTEMS: (Workmanship Standards applicable to both tractor and controls systems).	MANDATORY	Fully Meets	
6.9	Sp. Notes/ Wk.	Hydraulic Symbols: Hydraulic symbols on schematics must be interpreted per American National Standard Institute (ANSI) Y32.10.	MANDATORY	Fully Meets	
6.10	Sp. Notes/ Wk.	Leaks: Hydraulic leaks are not acceptable. A leak is defined as any fluid flow larger than one (1) drop in four (4) hours.	MANDATORY	Fully Meets	
6.11	Sp. Notes/ Wk.	All components installed in the hydraulic system must be free of contamination and must be flushed out or cleaned, if necessary, to meet this requirement. Components containing hydraulic fluid must not be installed in the cab.	MANDATORY	Fully Meets	
6.12	Sp. Notes/ Wk.	Hose Routing: Hose routing must meet the following requirements: The bend radii of hoses must be not less than the manufacturers' recommended minimums. Hoses must be routed no closer than six (6) inches from exhaust components or other heat sources unless proper shielding is provided. Hoses must not come in contact with moving parts. Hoses must be clamped to supporting structures at intervals not exceeding sixty (60) hose diameters. Clamps must be Beranger style or equal cushion clamps. Hydraulic hoses will NOT be bundled together using "wire ties". This must be accomplished using the Beranger or equal clamps. Fittings must be steel thirty-seven (37)-degree flare type on all pressure lines where practical. Flat-faced "O" ring seal type fittings are acceptable. Hoses must not be routed through holes or across sharp edges without protection from being chafed or cut.	MANDATORY	Fully Meets	
6.13	Sp. Notes/ Wk.	All major components, such as pumps, cylinders, motors and relief valves must be identified with their function and size. Relief valves must indicate proper pressure setting for each valve on the schematic.	MANDATORY	Fully Meets	

7.0	Elec. Wk. & Materials	7. ELECTRICAL WORKMANSHIP AND MATERIALS:			
7.1	Elec. Wk. & Materials	The wiring schematic must include SAE electric symbols to identify all components.	MANDATORY	Fully Meets	
7.2	Elec. Wk. & Materials	All interfaces between Chassis OEM wiring and added equipment must be shown to include electrical pin positions as arranged in the interface connections.	MANDATORY	Fully Meets	
7.3	Elec. Wk. & Materials	All wire color-coding and/or wire numbers must be displayed to indicate different circuits.	MANDATORY	Fully Meets	
7.4	Elec. Wk. & Materials	All wires must be un-tinned stranded copper with cross-linked polyethylene insulation. Wires must be color coded. Wire runs and color coding must be continuous and terminate within a weatherproof junction box or weather pack connectors.	MANDATORY	Fully Meets	
7.5	Elec. Wk. & Materials	Unless otherwise specified and except for multi-terminal connectors, solder less terminals must be used for all connections. Solder all ring terminals on ten (10) AWG and smaller wires must be insulated.	MANDATORY	Fully Meets	
7.6	Elec. Wk. & Materials	Insulated ring terminals must meet military Specification. Military spec ring terminals have an extra copper sleeve around the terminal barrel that improves the holding force and reduces corrosion.	MANDATORY	Fully Meets	
7.7	Elec. Wk. & Materials	Butt splices must have moisture barriers and integral polyolefin heat shrinkable sleeves. Heat shrink tubing over non-sealed butt splices is not acceptable.	MANDATORY	Fully Meets	
7.8	Elec. Wk. & Materials	Insulation-piercing connectors (scotch locks) must not be used.	MANDATORY	Fully Meets	
7.9	Elec. Wk. & Materials	Wires must be protected by looms, sleeving and grommets. Wire bundles must be routed away from moving parts and hot components. Wires must not be bundled with any electrical wiring or components.	MANDATORY	Fully Meets	
7.10	Elec. Wk. & Materials	Plastic wire ties must be black ultraviolet protected.	MANDATORY	Fully Meets	
7.11	Elec. Wk. & Materials	All chassis/body combination units must have a separate grounding strap installed from the body to the chassis.	MANDATORY	Fully Meets	
7.12	Elec. Wk. & Materials	Wire routing must ensure that the following requirements are met: Wires must not be routed closer than six (6) inches to exhaust components or other heat sources, unless they are shielded. Wires must not come in contact with moving parts.	MANDATORY	Fully Meets	
7.13	Elec. Wk. & Materials	Wires and wire harnesses must not be routed through holes or across sharp edges without protection from being chafed or cut.	MANDATORY	Fully Meets	
7.14	Elec. Wk. & Materials	All added 12 volt circuit wires must be AWG-14 minimum gage and conform to SAE J1128 GAL wire standard approved equivalent. Wire runs must be full length, splices are unacceptable.	MANDATORY	Fully Meets	
7.15	Elec. Wk. & Materials	System must have twelve (12) volt auxiliary circuits available for lighting, cab, ancillary, etc.	MANDATORY	Fully Meets	
7.16	Elec. Wk. & Materials	12 volt wire terminals must conform to MIL-T-7228, MS25036 (insulated, insulation type II, class 2 or equivalent).	MANDATORY	Fully Meets	
8.0	Operator(s)- Equipment Interface	8. Operator(s) - Equipment Interface:			
8.1	Operator(s)-Equipment Interface	Control Locations: The operator(s) station(s), including safety devices, controls, and gauges must be accessible, readable, and visibility of the operator without distracting from the safe operational requirements of the equipment ordered.	MANDATORY	Fully Meets	
9.0	Work Area Visibility	9. Work Area Visibility:			
9.1	Work Area Visibility	Visibility of the work area, road, etc., must be unobstructed and provide for safe equipment operation.	MANDATORY	Fully Meets	
10.0	Welding	10. General Welding Requirements:			
10.1	Welding	Distortion of assembled parts is not acceptable. All welds will have proper penetration and be relatively uniform in appearance. All welds must provide a metal-to-metal bond, using proper flux and/or welding materials. Continuous welds must be used wherever possible and practical.	MANDATORY	Fully Meets	
10.2	Welding	Body Fillers: The covering of welds with body fillers or similar practice is not acceptable.	MANDATORY	Fully Meets	
11.0	Training	11. Training:			
11.1	Training	All training must be scheduled and coordinated with Purchaser. Coordination will include dates, times, location, number of students per session, number of sessions required, facilities and training equipment and material.	MANDATORY	Fully Meets	
11.2	Training	An on-site supervisor or the Equipment Training Manager will evaluate training sessions; who must determine whether or not the training was adequate. If the training is deemed inadequate, Bidder must conduct additional training sessions, at no cost to the Purchaser, to the satisfaction of the Purchaser.	MANDATORY	Fully Meets	
11.3	Training	Bidders must provide option to purchase on-site repair technician training and/or operator training per unit delivered at Purchaser's chosen location, during Purchaser's hours of operation, if selected by Purchaser.	MANDATORY SCORED	Fully Meets	See Exhibit B File T1
11.4	Training	Bidder should also provide option to purchase remote repair training and/or operator training per unit delivered if selected by Purchaser.	HIGHLY DESIRABLE	Fully Meets	See Exhibit B File T1
11.5	Repair technician training	Person(s) conducting repair technician training session(s) must have at least one year of experience in the performance of preventive maintenance and repair on the unit for which the training is being conducted or a factory/manufacture certified trainer.	MANDATORY	Fully Meets	
11.6	Repair technician training	Repair technician training must be designed to familiarize service and repair technicians with preventative maintenance checks and services, system diagnostics procedures, repairs, adjustments, and any unique requirements associated with the entire unit.	MANDATORY	Fully Meets	
11.7	Operator Training	Person(s) conducting the operator training session(s) must have a minimum of one year of experience in actually operating the unit for which training is being conducted or a factory/manufacture certified trainer.	MANDATORY	Fully Meets	
11.8	Operator Training	Operator training will be designed to familiarize personnel with the controls, safety features, operating characteristics and operator checks and services.	MANDATORY	Fully Meets	
11.9	Operator Training	Operator training may include teaching operators shifting, acceleration, and braking techniques to maximize operational effectiveness of the unit's power train configuration for equipment so configured.	MANDATORY SCORED	Fully Meets	Comply- We would rely on local chassis dealership to provide this training if we supply the chassis
11.10	Training	Other training options: Please explain other training that you would be able to provide, i.e. offsite training opportunities etc.	DESIRABLE	Fully Meets	See Exhibit B File T1
12.0	Delivery	12. Delivery:			
12.1	Delivery	Delivery of product must be within 365 days of receipt of Purchase Order, or upon receipt of Purchaser Provided Chassis, whichever is later.	MANDATORY	Fully Meets	
12.2	Delivery	Delivery fees for completely configured vehicles must be included in purchase prices offered on contract. Delivery fees for completely configured vehicles will not be allowed as a separate line item. Delivery fees for parts that are purchased separately as opposed to a completely configured vehicle are allowed as a separate line item.	MANDATORY	Fully Meets	
12.3	Delivery	Delivery of product(s) must be Free on Board (FOB) to location of Purchase Order address.	MANDATORY	Fully Meets	
13.0	Warranty	13. Warranty:			
13.1	Warranty	Equipment Contractors must provide technical support and reasonable equipment modifications for a period of 90 calendar days after the date the equipment is reported in service per manufacturer and/or factory warranty requirements. This is to ensure that the purchased equipment is capable of performing the specified operational functions.	MANDATORY	Fully Meets	
13.2	Warranty	Bidders must include, as part of the bid, the factory and/or manufacturer's one year warranty, which must cover 100% parts and labor for the entire unit offered. This warranty must be honored by all authorized factory and/or manufacturer's dealerships.	MANDATORY	Fully Meets

STATE of WASHINGTON

RE: Section 5.0 Alternative Technology Requirements

To whom it may concern,

5.1 Vactor Manufacturing currently provides numerous technologies to lower greenhouse gas emissions.

Reduction of fuel consumed

Single Engine Drives - Vactor offers the 2100i Combination Sewer Cleaner, the 2100i CB (Catch Basin Cleaner), and the Ramjet Jet-Rodder all powered by the chassis engine (single engine design). Elimination of a second engine eliminates that engine's parasitic energy losses to pump coolant, pump oil, pump and pressurize fuel, drive the engine's mass, drive the gear train, drive an alternator, drive a cooling fan, and overcome internal frictional losses. These losses can reach as high as 20% of the engine's total energy consumption.

Simplify and speed job set-up and tear down time (engine idle time) – Vactor offers the following:

- A control system that engages all drives with a single button (known as IntuiTouch Controls).
- An exclusive, rapid deployment boom design which eliminates the need to assemble and disassemble vacuum pipe on most jobsites (known as RDB 1015).
- A rapidly-deployment, hands-free lighting system to illuminate the manhole from below grade to speed set-up and permit uninterrupted cleaning operations (known as H.A.L.O lighting system).

Clean lines faster with less water and less energy – Vactor offers the following:

- A Jet-Rodder pump that provides selective jackhammer action which is proven to clear blockages faster and allows the nozzle to pull out hose more rapidly and up steeper grades.
- A multi-flow system that reduces energy consumption because it only allows the pump to deliver the water flows needed to achieve the desired pressures. Pressurized water is never dumped across a relief valve.
- A water recycling system that improves efficiency of operations by allowing cleaning to be uninterrupted and performed in half the time.

Alternative Fuels

Vactor offers the following products powered by CNG fuel:

- Model 2100i Combination Sewer Cleaner
- Model 2100i CB (Catch Basin Cleaner)
- Ramjet model Jet-Rodder (water jet system only)

Electric and Hybrid-Electric

The key to a successful EV or Hybrid architecture is to understand the duty cycle of a customer. Catch Basin Cleaners, and Jet Rodders are generally high energy consumers and are often considered emergency vehicles. Vactor is experienced with working with its customers to instrument existing equipment to understand the operations and determine energy requirements in current operations, identify energy-saving opportunities, determine battery size requirements, and to understand feasibility for various electrification architectures in the customer's applications.

Current State-of-the-Art for this application

Generally, Catch Basin Cleaners and Jet Rodders are mounted upon Class 7 and Class 8 vehicles. Currently, the EV manufactures are focused on Class 6, and Class 8 for freight and refuse applications. Manufactures such as BYD and Lion Electric currently offer Class 8 vehicles and are just now considering other vocations. The mainstream chassis OEMs (e.g. Freightliner, Kenworth, Peterbilt, Navistar, Western Star) do not have an EV product available for this vocation yet. Due to the current power density of batteries relative to Diesel or CNG, trade-offs exist in the areas of space claim, net payload, and vehicle availability.

Hybrid architectures present interesting alternatives that can provide meaningful reductions in fuel consumption and the related greenhouse gas emissions. Hybrid systems can also be designed to allow the equipment to function with the batteries in a low state of charge to ensure the equipment is always available to operate.

An understanding of the end user's duty cycle and operations is key to selection of the best EV or Hybrid architecture. Vactor is prepared to instrument a customer's existing equipment and acquire and analyze the data collected to assist a customer in understanding the benefits and outcomes of an EV or Hybrid architecture.

Ron Schmidt

DES Solicitation 00120
Exhibit B _ Items 11.3 / 11.4 / 11/10
PROVIDED TRAINING CAPABILITIES

Owen Equipment can provide the following training scenarios:

Item 11.3 – Owen Equipment can provide onsite factory training for both operator and mechanic needs. This can be designed as a course for both disciplines or separated between the two. Our Corporate trainer Greg Read has over 30 years of experience in this industry and can train not only on Vactor products but also the other major Catch Basin suppliers.

Item 11.4 – Owen Equipment can provide remote training using Zoom and Go To Meeting for Operator and Mechanic Training. We do have some concern training operators via this method. We really need to be with the Operator in the vehicle for the best outcome.

Item 11.10 – Owen Equipment can provide offsite factory training at any of our facilities at a reasonable cost. We require a minimum of 10 attendees to do this specifically for DES. We do have these classes provided during the year so a municipality could send staff as needed.

Attached is a copy of one of our Offsite Training Agendas

Combo Operation & Maintenance Training

Instructor: Greg Read – Corporate Service Manager & Trainer

Class Outline

I) 8:30am – 10:00am

- 1) Introduction to the Combo Trucks
- 2) Who to Contact?
- 3) Power Point Presentation
- 4) Service Manuals
- 5) Major Component Overview
- 6) Basic Controls
- 7) Front Control Station

II) 10:15am – 11:45am

- 1) Operation and Maintenance
- 2) Safety
- 3) Vacuum System
- 4) Water System
- 5) Jetting Procedure

III) 12:00pm – 12:30pm -Lunch

IV) 12:30pm – 2:00pm

- 1) DOT Walkaround
- 2) Jobsite Setup
- 3) End of Shift Cleanup
- 4) Trouble Shooting for Operators
- 5) DPF System

V) 2:15pm – 3:30pm

- 1) Chassis Programming
- 2) Service Manuals
- 3) Hands on Operation
- 4) Safety 2
- 5) Maintenance Points
- 6) Q&A

EXHIBIT C -Catch Basin Cleaners and Jet Rodder Trucks (Various Sizes) BID PRICE EVALUATION (Rev 7.27.20):		Solicitation No. 00120		Owen Equipment Company
The Contract scope includes any equipment, options or additions in catalog related to Catch Basin Cleaners and/or Jet Rodder Trucks (Various Sizes) that meet Product Requirements as listed in Exhibit B.				
Catalog Location				
Link to MSRP Catalog:		Insert web address of catalog here, or attach copy in word document file format (.docx)		
Category Discounts				
Payment Option	Category	Definition (Each category includes but is not limited to:)	Manufacturer	% Discount off MSRP
Electronic Funds Transfer (EFT) only	Chassis	Chassis, including but not limited to 2 axle, 3 axle, 4 axle or 5 axle, of which Catch Basin and or Jet Rodder Equipment is mounted upon.	International	45.0%
			Kenworth	45.0%
			Freightliner	35.0%
			Peterbilt	39.0%
			Western Star	37.0%
			Other (define)	0.0%
			Other (define)	0.0%
	Catch Basin Cleaner Equipment	Including but not limited to the fresh water tanks, debris body, auxiliary engine, Vacuum system, Hydraulic Boom and Vacuum Hose, hoses and other equipment sold as an entire unit of a Catch Basin Cleaner Truck		4.5%
Jet Rodder Equipment	Parts installed on truck to complete a Jet Rodder unit, including but not limited to High Pressure Water System, High Pressure Jet Hose, hose reel, Handgun System, hose attachments and fresh water tanks. These are purchased as an entire unit.		4.5%	
Options	Items selected by customer to add on to purchase of entire unit. This includes and is not limited to Backup camera and or 360 camera provisions, and skid platforms, including hooklift configurations.		4.5%	
Alternative Technology Equipment	All items/parts related to creating Catch Basin Cleaner and Jet Rodder trucks that run on alternative technology, including batteries or alternative fuels. Items may include but not limited to, fully electric chassis, diesel/electric hybrids, motors, inverters, controllers, transmissions or other technologies appropriate to reduce greenhouse gasses for Catch Basin Cleaner or Jet Rodder trucks		4.5%	
P-card optional	Parts	OEM parts purchased to repair or replace parts on an existing truck in a customers existing fleet. Sold separately, by part. Not sold as entire new truck mounted unit.		0.0%
Training				
Payment Option	Category	Training	Rate	
Electronic Funds Transfer (EFT) only	Training	On-site repair technician training per unit delivered, up to 8 hr./day (hourly rate) *	\$	325.00
	Training	Remote option repair technician training, up to 8 hr./day (hourly rate)**	\$	150.00
	Training	On-site operator training per unit delivered, up to 8 hr./day (hourly rate) *	\$	325.00
	Training	Remote option operator training, up to 8 hr./day (hourly rate)**	\$	150.00
	Training	Other training options as provided by bidder, (detailed in Exhibit B)		199.00 per person

* On site training costs shall include all costs associated with training, including travel to and from site. No additional costs will be allowed.

**Remote option means live interactive training delivered via the Internet on video conferencing software, with video and audio available.

WC5001	Rear Door Decant Valve - 6" Knife Valve w/Camloc, 6:00 position - No Heat	\$773
WC5001A	Rear Door Decant Valve - 6" Knife Valve w/Camloc, 6:00 position - w/Glycol Heat	\$1,777
WC5001B	110V Electrical Outlet w/o Steamer Option (Includes Inverter)	\$1,197
WC5002	Rear Door Decant Valve - 6" Knife Valve w/Camloc, 3:00 position - No Heat	\$927
WC5002A	Rear Door Decant Valve - 6" Knife Valve w/Camloc, 3:00 position - w/Glycol Heat	\$1,777
WC5003	Centralized Lube Manifold for Boom and Rear Door Functions	\$1,700
WC6000	Wired Pendant Control for Boom Functions	\$872
WC6002	Extra Flange Style Stinger Tube Extension 6"	\$229
WC7001	Sliding Chain Hanger	\$725
WC7001A	Non Sliding Chain Hanger	\$268
WC7002	Pylon Holder/Safety Cone Holder	\$166
WC7003	Aluminum Tool Box - Frame Mounted, D/S - 56"w x 30"h x 24"d	\$1,810
WC7003A	Aluminum Tool Box - Frame Mounted, D/S - 41"w x 30"h x 24"d	\$1,368
WC7005	Aluminum Tool Box - Frame Mounted Behind Cab, P/S - 30"w x 60"h x 24"d	\$2,031
WC7007	Wrench Rack	\$116
WC8000	Bonding mats	\$1,242

WC8001	Grounding Stud - Front and Back	\$563
WC8002	CSA Threaded Hydrant Fill Adapter	\$28
WC8003B	Electronic Scale Install - Tandem Axle - Display Screen Mounted in Cab	\$2,301
WC8005	JJE Mudflap and Decal Install	\$44
WW508548	Vactor HXXpose Rotator Nozzle - 7 GPM @ 3,000 PSI	\$212
WW508549	Vactor HXXpose Rotator Nozzle - 9 GPM @ 3,000 PSI	\$212
WW508550	Vactor HXXpose Rotator Nozzle - 11 GPM @ 3,000 PSI	\$212
WW510013C	Vactor Reveal Straight Nozzle - 3 Jet 8 GPM @ 3,000 PSI	\$229
WW510013E	Vactor Reveal Straight Nozzle - 3 Jet - 14 GPM @ 3,000 PSI	\$229
	Standard Option Content	
WC1000STD	9 Cubic Yard Steel Debris Tank	
WC1002STD	Hydraulically Operated Hoist for Offloading Debris Compartment	
WC1003STD	Hydraulically Operated 3/4 rear door	
WC1005STD	8" Inspection Port in Boom Turret	
WC1006STD	Hydraulically Operated Wash System	
WC1007STD	Wireless Remote Control for Boom	
WC1009STD	Single Cyclone Separator c/w Collector Can	
WC1010STD	Side Mounted Aluminum Water Tanks (1000 US Gallons)	
WC1012STD	(1) Cross cabinet 34"D x 102"W x 91"H c/w Single Heater P/S. for Wash	
WC1013STD	Wash System Air Purge Blow Down	
WC1017STD	Digging Lance Package w/Quick Connects. 1 @ 6' and 1 @ 4' w/trigger assembly	
WC1019STD	Reach Pole for Rear Door Safety Prop	
WC1020STD	ISO 32 Hydraulic Oil	
WC1024STD	Federal Signal Back-Up Camera	
WC1031STD	Lay flat Fill hose - 2" Camlock Fill - Hydrant Adapter	
WC1033STD	Garment Hook Brackets in D/S Cabinet	
WC1037STD	8" Air Actuated Vacuum Relief	
WC1038STD	(2) ANSI Compliant Fall Arrest Anchor Points on Boom	
WC1039STD	Steel Final Filter Lid and Drop box lid	
WC1040STD	Hydraulic Overheat Alarm and Light Indicator	
WC1041STD	6" Ø Aluminum Vacuum Tube Package - (1) Dig Tube 76" and (2) 60" Long Vacuum Tube	
WC1046STD	20 LB Fire Extinguisher	
WC1047STD	Slide Out, Quick Boom Vacuum Tube Storage Bracket	
WC1048STD	Vacuum Tube/Remote Hose Storage behind Cross Cabinet (4 Section Rack)	
WC1026STD	(2) LED Boom Work Lights @ Boom Snorkel	
WC1029STD	LED Taillights, Stop/Turn/Tail	
WC1015STD	Strip Lighting Driver and Passenger Cabinet Interior	
WC3004STD	Low Water Alarm w/Light c/w Alarm Silence and Vac Relief Indicator	
WC1011STD	10 GPM @ 3,000 PSI CAT 660 Pump	
WC1016ASTD	3/8" x 75' Water Hose mounted on Manual Extend/Electric Retract Reel (10 GPM System)	
WC1018ASTD	10 GPM Nozzle Package - Includes: * #8 Vactor HXXPose Rotator Nozzle * #6 Vactor HXXPose Rotator Nozzle * 8 GPM, 3-Jet Vactor Reveal Straight Jet Nozzle	
WC1027STD	400,000 BTU Boiler - 12 Volt	
WC3003STD	Boiler Exhaust Hood	
WC1030STD	Water Sight Eyes - (4) Front and Rear P/S Tank	
WC1004STD	Electric Debris Body Vibrator	
WC1025STD	Fixed Vacuum Tube Storage - Rear Door	
WC1021STD	6" Drain Port Mounted in Bottom Portion of Rear Door and Capped	
WC1022STD	6" Drain Port Mounted at 3:00 Position of Rear Door and Capped	

WC1001ASTD	8" Reinforced Boom - For High-Vac Applications (Included with Upgrade to Hibon 840 Blower System)	
WC6000STD	Wiring Provision & Plug for Hard Wire Boom Pendant Remote	
WC1001STD	6" Extendable Boom - w/1-Piece Boom Hose to Turret	
WC1028STD	Non-Code Straight Bumper	
WC1034STD	Grounding Cable - 1/8" Diameter - Wrap Style

Exhibit C**INSURANCE REQUIREMENTS**

1. **INSURANCE OBLIGATION.** During the Term of this Master Contract, Contractor shall possess and maintain in full force and effect, at Contractor's sole expense, the following insurance coverages:
 - a. **COMMERCIAL GENERAL LIABILITY INSURANCE.** Commercial general liability insurance (and, if necessary, commercial umbrella liability insurance) covering bodily injury, property damage, products/completed operations, personal injury, and advertising injury liability on an 'occurrence form' that shall be no less comprehensive and no more restrictive than the coverage provided by Insurance Services Office (ISO) under the most recent version of form CG 00 01 in the amount of not less than \$2,000,000 per occurrence and \$4,000,000 general aggregate. This coverage shall include blanket contractual liability coverage. This coverage shall include a cross-liability clause or separation of insured condition.
 - b. **EMPLOYERS' LIABILITY (STOP GAP) INSURANCE.** Employers' liability insurance (and, if necessary, commercial umbrella liability insurance) with limits not less than \$1,000,000 each accident for bodily injury by accident, \$1,000,000 each employee for bodily injury by disease, and \$1,000,000 bodily injury by disease policy limit.
 - c. **BUSINESS AUTO LIABILITY.** Business Automobile Liability (owned, hired, or non-owned) covering the risks of bodily injury (including death) and property damage, including coverage for contractual liability, with a limit of not less than \$1 million per accident.

The insurance coverage limits set forth herein are the minimum. Contractor's insurance coverage shall be no less than the minimum amounts specified. Coverage in the amounts of these minimum limits, however, shall not be construed to relieve Contractor from liability in excess of such limits. Contractor waives all rights against the State of Washington for the recovery of damages to the extent such damages are covered by any insurance required herein.

2. **INSURANCE CARRIER RATING.** Coverages provided by the Contractor must be underwritten by an insurance company deemed acceptable to the State of Washington's Office of Risk Management. Insurance coverage shall be provided by companies authorized to do business within the State of Washington and rated A- Class VII or better in the most recently published edition of Best's Insurance Rating. Enterprise Services reserves the right to reject all or any insurance carrier(s) with an unacceptable financial rating.
3. **ADDITIONAL INSURED.** Commercial General Liability, Commercial Automobile Liability, and Pollution Liability Insurance shall include the State of Washington and all authorized Purchasers (and their agents, officers, and employees) as Additional Insureds evidenced by copy of the Additional Insured Endorsement attached to the Certificate of Insurance on such insurance policies.
4. **CERTIFICATE OF INSURANCE.** Prior to execution of the Master Contract, Contractor shall furnish to Enterprise Services, as evidence of the insurance coverage required by this Master Contract, a certificate of insurance satisfactory to Enterprise Services that insurance, in the above-stated kinds and minimum amounts, has been secured. In addition, no less than ten (10) days prior to coverage expiration, Contractor shall furnish to Enterprise Services an updated or renewed certificate of insurance, satisfactory to Enterprise Services, that insurance, in the above-stated

kinds and minimum amounts, has been secured. Failure to maintain or provide proof of insurance, as required, will result in contract cancellation. **All policies and certificates of insurance shall include the Master Contract number stated on the cover of this Master Contract.**

5. **PRIMARY COVERAGE.** Contractor's insurance shall apply as primary and shall not seek contribution from any insurance or self-insurance maintained by, or provided to, the additional insureds listed above including, at a minimum, the State of Washington and/or any Purchaser. All insurance or self-insurance of the State of Washington and/or Purchasers shall be excess of any insurance provided by Contractor or subcontractors.
6. **SUBCONTRACTORS.** Contractor shall include all subcontractors as insureds under all required insurance policies. Alternatively, prior to utilizing any subcontractor, Contractor shall cause any such subcontractor to provide insurance that complies with all applicable requirements of the insurance set forth herein and shall furnish separate Certificates of Insurance and endorsements for each subcontractor. Each subcontractor must comply fully with all insurance requirements stated herein. Failure of any subcontractor to comply with insurance requirements does not limit Contractor's liability or responsibility.
7. **WAIVER OF SUBROGATION.** Contractor waives all rights of subrogation against the State of Washington and any Purchaser for the recovery of damages to the extent such damages are or would be covered by the insurance specified herein.
8. **NOTICE OF CHANGE OR CANCELLATION.** There shall be no cancellation, material change, exhaustion of aggregate limits, or intent not to renew insurance coverage, either in whole or in part, without at least sixty (60) days prior written Legal Notice by Contractor to Enterprise Services. Failure to provide such notice, as required, shall constitute default by Contractor. Any such written notice shall include the Master Contract number stated on the cover of this Master Contract.
9. **EXTENDED REPORTING PERIOD.** If any required insurance coverage is on a claims-made basis (rather than occurrence), Contractor shall maintain such coverage for a period of no less than three (3) years following expiration or termination of the Master Contract.

Contractor Delivery Checklist Master Contract #00120 Purchase Order # _____ New Equipment # _____	Contractor Initials	Date
Provide the following required documentation, per Master Contract #00120, at time of delivery:		
The manufacturer's line production sheet stating the equipment serial numbers and listing all of the equipment's components		
Completed Invoice		
One (1) copy of the operator, maintenance and parts manuals. Digital copy preferred.		
The Manufacturer's Statement of Origin (MSO)		
Axle weight slips (for all units with axles)		
Vehicle weight slips from certified scales 1) empty truck and 2) fully loaded with fresh water.		
A completed Washington State title application with original signature showing both the legal and registered owner as Purchaser. Contractor(s) may contact ordering Purchaser to obtain a Washington State title application or addresses, and information regarding the title.		
Engineering schematic drawings of the electrical and hydraulic systems. Digital copies preferred.		
All safety equipment in proper working condition. (Lights, reflectors, seatbelts, etc.)		
All required publications.		

The Contractor will ensure all of the items listed below are inspected prior to delivery.		
• All hoses and wiring are protected from damage.		
• All fluid levels have been checked and are at the manufacturer's suggested levels.		
• All components are in proper working condition.		
• Welds are consistent and without cracks		
• No runs, cracks or chips in the paint.		
• The unit is clean inside/outside upon delivery.		
• Supplier is 100 % compliant with the bid specification(s) as bid by the Contractor.
