	<b>Contract Number:</b> 00311	<b>Date Issued:</b> 7/26/2011
	<b>Amendment Number:</b> 001 – Wilcox & Flegel	<b>Date Effective:</b> Upon OSP Signature
This Contract Amendment is issued under the provisions of the State Contract identified above. The changes authorized are within the scope of the original contract. All rights and obligations of the parties shall be subject to and governed by the terms of the original contract including any subsequent amendments, which are hereby incorporated by reference.		

### Purpose of Amendment

**Purpose:** Line Item Additions for gasoline 7.8 RVP fuel in conventional clear and E10 varieties. To update the fuel Matrix.

Contract 00311 allows for mutually agreed changes. See Section 10.5 – Changes.

1. Conventional Gasoline and E10 Gasoline in its regular, midgrade, and premium blend is part of the core group of fuels identified in section 1.1 – Purpose and 8.1 – Contract Scope of the contract. When harmonized with the matrix in section 11.3 it is clear that the fuel specified by the state at the time of solicitation was the Reid Vapor Pressure is 9.0 (a.k.a. 9.0 RVP) for Conventional Gasoline and E10 Gasoline.

The state has need for the 7.8 RVP Conventional Gasoline and E10 Gasoline. For each region/category, the multiplier for the 7.8 RVP fuels shall be the same as the Contractor's 9.0 RVP fuels. Therefore, the core list (A through J list) contained in Sections 1.1 – Purpose and 8.1 – Contract Scope of the contract is amended to specifically identify the 9.0 RVP and add the 7.8 RVP, and the other parts of these sections remain unaffected (only the A through J list is changed).

The list shall now read as follows:

- A. Gasoline (9.0 RVP), Unleaded: Regular, Mid-Grade, Premium, and Ethanol (E10)
- B. Gasoline (7.8 RVP), Unleaded: Regular, Mid-Grade, Premium, and Ethanol (E10)
- C. Ultra Low Sulfur Diesel #2 Clear
- D. Ultra Low Sulfur Diesel # 2 Dyed
- E. Ultra Low Sulfur Diesel #1 Clear (November through February)
- F. Ultra Low Sulfur Diesel #1 Dyed (November through February)
- G. Biodiesel Clear
- H. Biodiesel Dyed
- I. Heating Oil (based on ULSD #2 Dyed)
- J. Other additives, energy products, incidentals, fuels, and services requested by qualified customers
- K. Diesel Exhaust Fluid (DEF)

2. To accommodate the addition of the six Gasoline 7.8 RVP fuels described in section 1 above, the Reference Cities Matrix located in contract section 11.3 – OPIS Rack Reference Cities Matrix is amended to include the 7.8 RVP gasoline/E10 blends, and the other parts of the section remain unaffected (only the matrix is changed).

The matrix shall now read as follows:

	<b>Amendment Number:</b> 2	<b>Date Effective:</b> Jan 1, 2012
This Contract Amendment is issued under the provisions of the State Contract identified above. The changes authorized are within the scope of the original contract. All rights and obligations of the parties shall be subject to and governed by the terms of the original contract including any subsequent amendments, which are hereby incorporated by reference.		

**Purpose of Amendment**

Purpose: Acknowledgement, Legal Notices, and to extend the current contract term.

- Acknowledging that the Department of General Administration has been reorganized into the Department of Enterprise Services (DES). The creation of DES became effective October 1, 2011.
- In section 20.4 – Legal Notice: For legal notice purposes, OSP’s address is now:

Physical Address: 1500 Jefferson St. SE, Olympia, WA 98501-2355.  
 Mailing Address: P. O. Box 41017, Olympia, WA 98504-1017.

- ADDED VERBIAGE to the contract:

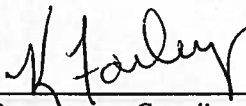

**SECTION 11.2** - Absent critical circumstances and OSP approval by contract amendment, OPIS multipliers shall not change during the life of the contract. Fuel prices will be allowed to increase or decrease during the life of the contract and OPIS DAILY AVERAGE rack prices (correlated to the actual delivery date) will serve as the basis for establishing contract fuel prices. With the possible exception of biodiesel, no other price change publication will likely be considered by OSP. Below is a table identifying the OPIS reference city for each of the 8 regions and the OPIS reference city will be used to establish fuel prices for all deliveries located in that region regardless of where the contractor sources the fuel to be delivered. Contractors are reminded that the cost charged to contract customers is a ceiling and not a floor. Contractors may always extend a voluntary price discount to contract customers.

**\*Amendment to read**

For all deliveries made Saturday and/or Sunday fuel prices invoiced for those deliveries shall reflect OPIS DAILY AVERAGE rack prices posted for the following Monday.

**Contract Amendment**

**Date Issued:** November 2, 2015

**Effective Date:** October 1<sup>st</sup>, 2015

**Contractor Name:** Wilcox & Flegel

**Amendment Number:** 10

This Contract Amendment is issued under the provisions of DES Master Contract #00311. The changes authorized are within the scope of the original contract. All rights and obligations of the parties are governed by the terms of the original contract, including any subsequent amendments, which are hereby incorporated by reference.

**Purpose of Amendment:**

1. To add or revise, as applicable, the provisions of the contract relating to a Management Fee. The following language regarding the Management Fee is added to the contract. If the contract or any amendments already contain Management Fee language, the following language supersedes it.
  2. All terms, conditions, specifications, and pricing remains unchanged.
- 

**1. DES Management Fee: Beginning October 1, 2015:**

Contractor will pay a management fee of 0.25 percent (0.025) of the contract's inclusion customer total net sales and shown as a separate line item on the invoice. Contractor shall hold the management fee in trust for DES until such fees are remitted to DES.

Per RCW 39.26.050: Provision of Goods and Services

**1.1 Inclusion Versus Non-inclusion Customers or list**

The management fee (aka MF) paid by the Contractor to DES is based on the total net sales to contract customers. DES shall determine whether or not a customer's sales are included in the total net sales calculation. The default is that all customer sales are included in the total net sales (inclusion). DES has, at its sole discretion, identify the following list of customers whose sales will not be included in the total net sales calculation (non-inclusion) and shall become effective October 1<sup>st</sup>, 2015. Any changes to the non-inclusion list will also be memorialized in a DES contract amendment. References to inclusion or non-inclusion may also include the words customer or list.

**Reserved rights: the following list of customers have been identified as non-inclusion and are exempt from the DES Management Fee:**

- King County
- Washington State Department of Transportation(WSDOT)
- Snohomish County PTBAC Community Transit
- City of Seattle
- Pierce Transit

**1.2 Beginning October 1, 2015:**

**Contract Pricing**

This section contains references to a management fee adder (aka MF adder). For expanded details please refer to the section titled Management Fee Adder.

Non-inclusion Customer List:

- a. Per gallon fuel price: OPIS reference X contractor's bid multiplier.
- b. Delivery: Current agreed pricing.
- c. Diesel Exhaust Fluid: Current agreed pricing.
- d. Other products/services: Current agreed pricing.

Inclusion Customer List:

- a. Per gallon fuel price: OPIS reference X contractor's bid multiplier X MF adder expressed as a percentage and separate line item.
- b. Delivery: Current agreed pricing X MF adder expressed as a percentage.
- c. Diesel Exhaust Fluid: Current agreed pricing X MF adder expressed as a percentage.
- d. Other products/services: Current agreed pricing X MF adder expressed as a percentage.

DES may, at its sole discretion, increase, decrease, or eliminate the Management Fee upon thirty (30) days written notice to Contractor. Any increase or decrease of the Management Fee, shall be reflected in contract pricing commensurate with the adjustment using the calculation above.

Contractor will provide DES with a Usage report detailing all Net Collected Amounts for the preceding quarter according to the table listed below, in accordance with the Sales and Subcontractors Report section of the contract. DES will send an invoice each quarter, based on such report within 30 days after receipt. Payment of the DES Management Fee is due one month following Contractor's receipt of the invoice from DES. See Usage, Invoice, and Remittance Table below.

Taxability (if applicable): In 2013, the WA Department of Revenue announced that if the underlying transaction requires sales tax then the DES Management Fee portion of the transaction is also subject to a sales tax. However, when the DES Management Fee that is held in trust by the Contractor is remitted to DES, it is not taxed a second time.

The state reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced and all DES Management Fees have been paid. Failure to accurately report Usage, to submit a timely Usage report, or remit timely payment of the DES Management Fee may be cause for contract termination, the charging of interest or penalties, or the exercise of other remedies provided by law.

DES Management Fee payment from the Contractor to DES must reference the Contract number, work request number (if applicable), the name of the contractor as known to DES, the year and quarter for which the DES Management Fee is being remitted, and the DES invoice number.

All payments must be sent to:

Washington State Dept. Enterprise Services  
Finance Department  
1500 Jefferson

Olympia, WA 98501
