Foster Company</p> <p>Lee B. Foster was only 20 years old when he founded the company in 1902 that bears his name. L.B. Foster Company has grown for more than a century to become a leader in the manufacture, fabrication and distribution of infrastructure products and materials.</p> <p>Foster began the company to service a transportation need he recognized while growing up around his father's oil business in Titusville, Pennsylvania. Lee saw that his father received many inquiries from mines, logging camps, and quarries about the availability of relay (used) train rail. Because no truck transportation existed at the time, permanent and temporary rail spurs were the only means for transporting heavy materials to and from jobsites near and far. New rail was costly, and Foster saw an opportunity to resell rail that had been retrieved from abandoned and replaced railroads and urban transit systems.</p> <p>To encourage the sale of used material, Lee Foster initiated a guarantee that set his firm apart from others and contributed greatly to his success: "If the material is not up to the standard represented, ship it back and we will pay the freight both ways." This dedication to customer satisfaction became a core company value and remains today at the forefront of the L.B. Foster customer service policy.</p> <p>In addition to transportation products, L.B. Foster Company began to focus on other infrastructure-related industries for new expansion. Today the company markets its products to businesses involved in transportation, construction, energy, utility, recreation, and agriculture.</p> <p>In 1999 the company acquired CXT Incorporated, a leading manufacturer of engineered concrete products for railroad and recreation markets. This acquisition positioned L.B. Foster to better serve customers with a comprehensive line of mainline, transit and industrial rail products. The purchase of CXT also expanded the company into the production of recreational and multi-purpose precast concrete buildings.</p> <p>CXT Incorporated</p> <p>CXT® was started in 1987 as a joint venture of Costain and Con-Force to build concrete railroad ties (CXT stands for concrete crossing ties) in the U.S. for the Burlington Northern railroad. The company was placed in Spokane, Washington due to its proximity to high quality aggregates, and both Burlington Northern and Union Pacific rail lines. In 1991 CXT management created an ESOP to buy the business from the two companies. CXT Concrete Buildings was started in July 1992 as CXT's third division, (the others were the Concrete Railroad Ties and the Paver and Segmental Retaining Wall Divisions). The initial order was for 11 single vault waterless restrooms with the Idaho Panhandle National Forest. In 1999, CXT was purchased by L.B. Foster Company and became a wholly owned subsidiary of L.B. Foster.</p> <p>In 2001, CXT expanded into its second 120,000 square foot manufacturing facility in Hillsboro Texas. The plant serves the southern and central U.S.</p> <p>In 2013 CXT was awarded its first Sourcewell contract. The contract has grown each year and expanded its sales in all markets. Many of our customers were first time Sourcewell users and we are proud that we helped expand the Sourcewell Cooperative contract purchasing membership.</p> <p>In 2014 L.B. Foster acquired Carr Concrete a leading manufacturer of engineered concrete products in the eastern U.S. Carr Concrete became a division of CXT. The acquisition positioned CXT to better serve customer in the eastern U.S. with a 130,000 sq.ft. of production based in Waverly, West Virginia.</p> <p>In 2019 The Spokane, Washington operations were moved to Nampa, Idaho. The new 79,000 square feet will centralize manufacturing to CXT's existing and prospective customer base.</p> <p>In 2020 L.B. Foster acquired LarKen Precast who manufactures standard and custom engineered precast concrete products. Larken is a well-known manufacturer in the Boise, Idaho area that distributes their products primarily for state and municipal wastewater, irrigation and electrical applications servicing the southwest and central Idaho, as well as eastern Oregon regions. LarKen Precast became a division of CXT. Our all concrete design withstands hurricanes, earthquakes, heavy snow loads and the worst that vandals can bring. The buildings come in a variety of styles to meet the needs of city, county, state, education, and federal customers. In the last 20+ years CXT has produced and shipped over 25,000 units nationally and internationally</p>
10	What are your company's expectations in the event of an award?	CXT expects to continue to expand its sales using Sourcewell contract. CXT is a proud member and used our direct sales force to help promote the benefits of the cooperative purchasing approach for all products available on Sourcewell contract. At our current growth rate we expect Sourcewell to be 25% of our overall sales (\$4M sold through Sourcewell per quarter) and if awarded again we expect that to continue to grow to 30% of overall sales.
11	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	<p>See attached financial statements for L.B. Foster Company (file 2020-LBFosterAnnualReport.pdf). L.B. Foster is a publicly traded company at FSTR on Nasdaq.</p> <p>CXT is a wholly owned subsidiary of LB Foster and falls under LB Foster Infrastructure group. LB Foster continues to have strong financial results even during these difficult times. LB Foster is positioned to continue to grow. CXT is a vital division of LB Foster and a major focus for growth in the future.</p>
12	What is your US market share for the solutions that you are proposing?	Market share is very difficult to measure in our industry. (no consolidated information exists). We have done internal studies that have found the North American market to be around \$100m in 2016, with our 2016 sales at \$40m. That would put our market share at approximately 40%. Currently we expect to reach \$64M in 2021, but also think the market has grown and our share doesn't exceed 50%.
13	What is your Canadian market share for the solutions that you are proposing?	No data exists for the Canadian market that we are aware of. We sold \$500,000 in 2020.
14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	NO

15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	CXT is a manufacturer with a sales force that sells directly to the end users. The sales force are employees of CXT. Each current sales employee has gone through Sourcewell University. This direct sales to end user model fits extremely well with the Sourcewell contract. The Sourcewell member deals directly with CXT and had no middle man in regards to sales, service, or warranty.	*
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	CXT holds several dozen licenses, certifications, and certificates. Of these, most concern the manufacture of CXT's concrete building line and are specifically aimed at the manufacturing process. The most important of these are the following: PCI certified, ISO 9001 certified and IAS compliant.	*
17	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Neither CXT nor L.B. Foster has been suspended or disbarred.	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
25	Sales force.	CXT has seven dedicated outside sales managers. Each sales manager is responsible for sales, marketing, and sales service in their respective geographic region. In addition to the outside sales force, we employ three dedicated inside sales professionals, a logistics department, warranty department, engineering department and scheduling department. These departments, including sales, report to a Director of Commercial Operations. Each sales member has gone through Sourcewell training. The Sourcewell member is directly dealing with a CXT (employee) on all transactions.
26	Dealer network or other distribution methods.	CXT does not utilize a dealer network. Sourcewell members get direct from the factory pricing.
27	Service force.	CXT has a comprehensive and formal service force to handle all our customers' needs post sale. To install our buildings properly, we use CXT certified, independently owned installation crews (eight national and one international). These crews are responsible for the installation, troubleshooting and immediate warranty work on all buildings placed. Each installation crew is trained by CXT via required on-site training sessions held once a year. In addition to our install crews, we utilize a toll-free number for service related questions, web based replacement parts ordering system and CXT employed and dedicated warranty department with three full time employees to handle any and all post sales needs or situations. Sourcewell members deal directly with CXT.
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	All orders are managed, processed, and executed by CXT. Order process: Order documents received (signed quote or PO, building worksheet, install questionnaire); order processed at CXT (PO verified, drawings generated, questions generated to customer); drawings completed by CXT and returned to customer for approval; customer approves drawings then CXT generates manufacturing instructions; building is then scheduled for production and delivery.
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	CXT operates and manages a very comprehensive customer service program. This starts with the initial call for questions regarding our products and does not end. Since a majority of our customers are repeat customers, service is extremely important to our business. CXT's service program consists of handling our prospect or customers service needs quickly (within hours not days) and concisely. CXT accomplishes this by using our entire inside and outside sales staff, warranty department and CXT certified installation crews to answer, troubleshoot and fix any and all service related questions. We also utilize web-based videos and FAQ's on our website that give quick answers to everyday questions and issues our customers encounter on a daily basis.
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	CXT has three plants nationwide, Nampa ID, Hillsboro TX, and Waverly WV that service the entire US will keeping the cost of delivery to a minimum. There are no geographical sites or market segments in the United States that we will not be servicing via the Sourcewell contract.
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	CXT plants can provide products into all of Canada. There are no geographical sites or market segments in Canada that we will not be servicing via the Sourcewell contract.
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	NA
33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	NA
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	CXT has no offshore contract requirements, apart from shipping costs. We actively sell our products to Alaska, Hawaii, Japan, Canada, and Mexico (to name a few offshore markets). Since all of our products are FOB plant and shipping is a per project priced item, the shipping program to offshore locations would be no different apart from the expense.

Table 7: Marketing Plan

Line Item	Question	Response *
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	CXT utilizes a direct to member sales strategy. Our direct sales approach allows the members to deal exclusively with CXT. This also allows us to lead every contact with Sourcewell contract information. Each piece of literature, web site, even email signatures will identify Sourcewell by use of logo, and contract number. Each sales call (150+ per month) will discuss the advantage of Sourcewell and cooperative purchasing. All trade shows (30+ per year) will have Sourcewell banners and membership information. All advertising will have Sourcewell logo and contract information. CXT will continue to drive every order toward usage of the Sourcewell contract and deliver the message of the advantages that using Sourcewell offers.
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	CXT uses our web site www.cxtinc.com to generate and track lists of possible customers and tailor that list to drill down what exactly our customers are looking for. CXT uses broadcast email that contain the Sourcewell logo and contract information to generate leads and interest. More and more customers are using the internet to do their research, and this is no different for the parks and recreation concrete building industry. Our web site allows members to easily download drawings, specifications and request a quote for a unit. CXT uses Google AdWords to generate top search and optimizes it search through meta tags.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell has been a great partner in our marketing. CXT uses Sourcewell logo and contract information in all marketing. This has attracted members to contact CXT for information. Our Sourcewell contract manager has done an excellent job talking potential customers through the Sourcewell process and how cooperative purchasing works and can benefit them. The Sourcewell web site does a great job explaining the process to potential customers. Sourcewell member list is used by our sales force to cross reference current members with prospects that we are working with. If they are not a member we show the how easy it is to become a member and how easy it is to contact Sourcewell for more information.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	CXT does utilize an E-procurement ordering process right now for our parts and is creating a configurator for our web site that will build out and provide a drawing of the building they are looking for. We discuss yearly, the possibility of an E-procurement program for ordering our buildings, but with all the possible components that go into one of our buildings and the large dollar component to buying a building, our customers still need a quote and have to generate a PO for purchasing a unit. The Sourcewell contract has made purchasing easy, so with our product, we do not feel that the customer would benefit from E-procurement at this time. But, as stated we look at changing every year.

Table 8: Value-Added Attributes

Line Item	Question	Response *
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	CXT does offer training for our customers and we do it using several different avenues. First, we use our web site as a first line of product training. On our site, we offer all of our standard building cut sheets, drawings and specifications for reference, tutorial videos to see installation of our products, worksheets to determine trucking requirements, troubleshooting videos for common problems and maintenance manuals both online and delivered with each building. CXT offers onsite training for our customers to go over our product line, project needs and building maintenance suggestions at no charge. Customer's are followed up with a survey after delivery to determine their overall satisfaction. 90% of our orders are from returning customers and having Sourcewell makes that return buy easier.
40	Describe any technological advances that your proposed products or services offer.	CXT is the leader in the concrete building market which is due in large part to our continuing success in using technological advances in the manufacturing process of our buildings. Over the last 25 years, we have honed our skill at manufacturing the highest quality product on the market. Just a few of the ways we have accomplished this is the addition of LED lighting on the interior and exterior of all buildings as a standard for all Sourcewell customers. All plumbing fixtures are the latest in low flow high efficiency flushing. We have also evolved many of our offerings floor plans to meet the ever-changing market place to meet ADA and gender specific requirements. And due to the pandemic we offer units that easily allow for use without a concern for social distancing, and are easy to sanitize. Our designs and innovations have largely been driven by listening to Sourcewell members needs.
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	CXT has continued to provide the "greenest" building on the market. Our product uses the latest in lighting, plumbing and materials. The buildings provide LEED credits for our customers' projects allowing them to meet top energy, water, and efficiency standards
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors. 43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	CXT is a wholly owned subsidiary of LB Foster Co. Unfortunately, we do not qualify for any small business, women or minority owned designations. CXT does utilize as many small businesses as possible for its vendor program. Over 60% of our companies spend is directed to SBE's and all certified installers are SBE's with Veteran owned, and Women owned.
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	At CXT there are many ways that separate our business from our competitions starting with our indoor assembly line manufacturing process to the buildings themselves using all concrete designs that will not rot, rust, warp or burn. Although these and many of the attributes discussed earlier give our product the edge in the marketplace, CXT's major difference from the competition is our commitment to the product and the staff. CXT makes concrete buildings at our three manufacturing facilities and run 365 days of the year. This commitment and the people who work to keep the plants running are what separate us from the rest. CXT has provided Sourcewell members the highest quality buildings and service for the last four years and hope to continue to provide this to Sourcewell members in the future.

If a manufactured component has a longer warranty, (ex our interior LED lights have a lifetime vandalism warranty) that warranty is passed on and honored for the customer.
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Warranty is for standard use and design loads. We do not warranty against vandalism and acts of God.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our price on our Sourcwell work sheets are the discounted price for members. See file SourcwellPriceSheets.zip Pricing of the building and all options are easily clicked on and added up on our price sheets. The sheets are sent to members with the freight and any optional items requested. The pricing includes the offloading and set up at site. Members have a place to add their member number and a estimated lease rate from NCL is shown. Open market items are also listed in a separate area, along with freight for complete cost clarity.
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	CXT is offering a 10% discount off of buildings on our Commercial building price list. It represents our best discount offered. The pricing is the same that is currently offered to Sourcwell members.

For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Our price sheets identify all "open market" custom option items requested by the member. They will be priced at cost plus 30% for Members. Standard non-member pricing is cost plus 40%.
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Cost of any PE stamped drawings and state inspection fee's that are required will be added as a line item on all price sheets for complete clarity. All required taxes are not include.
63	If freight, delivery, or shipping is an additional cost to the Sourcwell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight is FOB plant pre-paid and add. A line item is included on all Sourcwell price sheets for complete clarity. All building prices include the offload and setting of the building at site.
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Since all of our products are FOB plant and shipping is a per project priced item, the shipping program to offshore locations would be no different apart from the expense.
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	All building pricing includes the cost of the crane to offload and set the building at site for Sourcwell members.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	All entities orders are checked to insure that they are Members prior to price offer. If not the entities are asked to join. All orders are checked to insure that the ordering entity is a member and has provided Sourcwell Membership details. CXT has designated Sourcwell price sheets that must come in on all Sourcwell orders. From there, all orders then follow our ISO 9001 process to insure they are tracked and entered with the membership information. All membership information is part of the entities account information and segregated in our system and tracked. Every quarter a report is pulled of the invoiced orders that are tracked and sent to Sourcwell.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Sourcwell orders are measured as a percentage of total sales each month/QTR and year, with a current goal to meet 25% of all sales running through Sourcwell.
69	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	2%. Equal to our current fee.

Line Item	Question	Response *
70	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	CXT offers a full line of precast concrete restroom, shower, concession, and utility buildings. The units come in multiple sizes and designs that offer the users a low cost, easy to maintain building, that ships ready to use and installs in hours not days. Our buildings include all concrete designs and withstand hurricanes, floods, earthquakes, and the extremes of vandals. The buildings meet all codes, including ADA, and current electric and plumbing codes. Included on the Sourcewell pricing are 6 waterless vault style, 9 flush style, 4 shower units, 4 concession units, and 2 utility units. We also offer a customizable unit that allows members to mix and match of create a floor plan that works for them. See worksheets for a description of each unit offered.
71	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Waterless and water style units. Storage, concession, and utility (pump house, telecommunication) use.

Table 15: Industry Specific Questions

Line Item	Question	Response *
77	Describe the installation process for your products and identify how installation is managed in the order process, if applicable.	Installation is included in the price of each building. CXT contracts the crane and has certified dedicated crews that perform the work. When ordered the Sourcewell member is asked for a date they would like to see the building delivered. From there, we work to produce, ship, and offload to meet that schedule. Roughly 2-4 weeks prior to the date of delivery, CXT confirms the site/member is ready to receive the building. A specific date and time are set for the delivery of the building and the trucking, crane, and installation crew are scheduled. On the date scheduled the crew offloads, and sets the building on the customer site. Once set, the crew will insure that all items are complete and the building is ready to use. At that point the crew have a walk through with the member representative and a signoff is given. Sourcewell members have a line item option of having CXT connect to site utilities', or perform that themselves on the flush, shower and concession room buildings. CXT can also perform the site pad and stub up work on these types of buildings for members. On vault restroom buildings, Sourcewell members have the line item of CXT doing the earthwork - digging, backfilling, compacting the hole for the vaults of the vault restrooms. The goal is to have a building set and ready to use in a very short period of time to help eliminate extensive site supervision time by the member. Also to give the member whatever level of service they need to get the building in to meet their budgets. Depending on size of the building, typically CXT can have the building ready to use in as little as 4 hours, and not longer than 3 days on large multi-section buildings.
78	Describe applicable vandalism resistance or vandalism abatement measures or attributes incorporated in the design or manufacture of your products.	CXT has all concrete construction. The building cannot rot, rust, burn down, and insects can't eat it. Siding and roofing will never need to be replaced. The walls and roof are cast in textured to match a wide option of simulated textures, including wood, block, brick and stone and give the appearance the member is looking for without the worry of replacing exterior finishes. All plumbing fixtures are wall mounted and valve and pipes are placed in chase area, not exposed to the public to keep them from being broken/vandalized. Stainless steel fixtures are available as an option for plumbing. And interior LED lights come with a lifetime warranty protection from vandalism. Every design CXT has is designed for durability, vandal resistance and low maintenance by the member.
