

06419 – Encampment Cleanup Services

Ordering & Pricing

This contract uses a “Prevailing wage plus percentage markup” model, or PW+%. The following PW+% formula is an example based on the prevailing wage rate (e.g., \$55/hour) for a general laborer for an encampment cleanup in a hypothetical county for which the contractor applies a 48 percent markup:

$$\text{\$55} + (\text{55} \times \text{.48}) = \text{\$81.40} \text{ (maximum hourly rate)}$$

Prevailing wage tables for every Washington county are updated twice-yearly by the Department of Labor and Industries at <https://secure.lni.wa.gov/wagelookup>.

Project manager pricing is shown as a straight maximum hourly rate and is not subject to prevailing wage.

WESTERN REGION

Category 1

Vendor markup by job	NRC	NCES	Amer. Abatement	Layland Const.	Bio Mgmt NW
General laborer	35%	40%	50%	60%	62%
Power equipment operator	35	50%	50	60	66
