

Assist Services Pricing and Fees

Our pricing structure is simple:

- We charge a fee of \$30 one way for the first child.
- We charge \$2.50/mile after 5 miles; we only count miles when a child is riding.
- We charge a flat \$9 fee for each additional sibling added to a vehicle.

Cancellations: District will not be charged if the ride is canceled more than two business hours before the scheduled departure time. If the ride is canceled less than two business hours before the scheduled departure time, then the District will be responsible for the full cost of the ride. Business hours are 6 am to 6 pm local time.

No-Show Reports:

A designated representative(s) at the District will receive a report at 10 am and 5 pm each day listing any “No Shows” from the morning and afternoon, respectively.

Minimum usage: There are no minimum spending requirements or usage guarantees associated with this agreement. District is not obligated to use Assist Services at any time during this contract. Charges will only occur when a ride is executed or when a student does not take a scheduled ride without a prior cancellation in accordance with the cancellation policy outlined above.
